INTRODUCTION

A belief is not a fact. Existence is pure fact and not a belief and should be interpreted with fact and not with belief. The pathetic situation on planet Earth is that the single fact of existence in **Ultra ALMIGHTY EXISTENCE** is being misinterpreted with many conflicting religious beliefs in god. This is very wrong and misleading, because existence is pure fact and not a belief. Therefore, existence should be interpreted with fact and not with belief or with the religious beliefs in god, which is the reason for the religious conflicts, violence and wars and the chaos on Earth.

A belief is not a fact. This means that the use of belief to misinterpret a fact must lead to complications and conflicts, just as the use of many religious beliefs in god to misinterpret the single fact of existence have led to the religious conflicts, violence and wars and the chaos on planet Earth. The religious conflicts, violence and wars shows that the religious beliefs that god is our creator is very wrong and destructive, because it is not the fact of (our) existence.

Existence is pure Fact and not a belief. Unfortunately, our ancient ancestor's religious beliefs in god have made the word belief to become the standard means of misinterpreting existence with religious, "scientific" and atheist beliefs and the use of god to misrepresent **Ultra ALMIGHTY EXISTENCE**, Creator of humans and gods.

The misinterpretation of the single fact of existence in **Ultra ALMIGHTY EXISTENCE** with many conflicting religious beliefs in many gods, is like placing a square peg in a circular hole and which must lead to complications and conflicts. The complications and conflicts in the use of many religious beliefs in god to misinterpret the single fact of existence in **Ultra ALMIGHTY EXISTENCE**, is the reason for the religious conflicts, violence and wars and the discord and chaos on Earth.

This is not surprising, because there must definitely be complications, conflicts and chaos if belief is used to misrepresent fact and if the many religious beliefs in god are used to misinterpret the single fact of existence in **Ultra ALMIGHTY EXISTENCE**.

A belief is not a fact. This means that the religious beliefs that a god is our creator is not the fact of (our) existence and which further means that god is not our true Creator. This is why the use of many religious beliefs in god to misinterpret the single fact of existence and the use of god to misrepresent **Ultra ALMIGHTY EXISTENCE**, have led to the complications, conflicts, violence, wars and chaos on planet Earth.

This is why the freedom of religion, which is the right to choose and worship different gods as our different creators is very wrong and destructive and must be revoked, for there to be the perfect peace for Paradise already due on planet Earth.

Ignorance makes us to believe. That was why our ancient ancestor's geocentric model and ignorance of astronomy

made them to believe that our planet Earth is orbited by the Sun as the geocentric centre of the “universe”, is the only Planet in existence and is the magical beginning of existence by god or gods.

Our ancient ancestor's geocentric model of astronomy have been proved to be wrong with a telescope by Galileo and replaced with the heliocentric scientific fact of astronomy, which shows that existence is an interconnected unitary system in which our planet Earth is one of the nine planets in our Solar system, our Solar system is one of the myriads of solar systems in our Milky way galaxy, our Milky way galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**.

To stop the religious beliefs in god and planet earth and stop the destructive religious conflicts, violence and wars, we of the present age of space exploration must start using the heliocentric scientific fact of astronomy to reinterpret existence with Fact for Peace.

The fact for peace is **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse in which myriads of wonderful creations and humans and gods are in existence and sustained.

LECTURE 1

THE FACT FOR PEACE REEDUCATION PROJECT

The pathetic situation on planet Earth is that the fact of existence is being misinterpreted with belief. The prevalent use of beliefs to misinterpret the fact of existence, started with our ancient ancestor's geocentric ignorance of astronomy and their religious beliefs that our planet Earth is the only Planet in existence and is the magical beginning of existence by god or gods.

Due to our ancient ancestor's religious beliefs in god, existence is now misinterpreted with many conflicting religious, “scientific” and atheist beliefs and the use of many conflicting beliefs is confusing and misleading humans on Earth from knowing the fact of our existence in **Ultra ALMIGHTY EXISTENCE**.

The Fact for Peace Reeduction Project is to reeducate and redirect humanity on Earth to reinterpret existence with fact, by using the heliocentric scientific fact of astronomy, which shows clearly that existence is an interconnected unitary system in which our planet Earth is one of the nine planets in our Solar system, our Solar system is one of the myriads of Solar systems in our Milky way galaxy, our Milky way galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**.

This means that to be **in** EXISTENCE is to be Created to exist by **Ultra ALMIGHTY EXISTENCE**. Since humans and gods are in existence, this ultimately means that **Ultra ALMIGHTY EXISTENCE** Create we humans and gods to be in existence and to **Ultra ALMIGHTY EXISTENCE** we humans (and gods) are to direct our worship and prayers for there to be the Perfect Peace for Paradise on Earth.

The heliocentric scientific fact of astronomy guides humans on Earth to **know Ultra ALMIGHTY EXISTENCE** infinitely Creates planets, stars, galaxies, universes and we humans and gods to be in existence and sustained. This pure fact of existence is meant to unite humanity on Earth to have the perfect peace we need to combine with our technological development to fulfill Paradise on Earth.

Unfortunately, this is not the situation on planet Earth, where the religious beliefs in god and the destructive religious conflicts, violence and wars continue to ravage humanity on planet Earth. The religious conflicts, violence and wars makes it necessary to question and review the foundation of our ancient ancestor's religious beliefs in god.

THE QUESTION

If a belief is not a fact, the question is why did our ancient ancestors use the word belief and the religious beliefs in god to misinterpret the fact of existence.

With our current heliocentric scientific fact and knowledge of astronomy, is it true that there was a time when our planet Earth was the only Planet in existence or was orbited by the Sun as the stationary geocentric centre of the “universe” or was the beginning of existence by god or gods.

If we humans are created by a god or gods, why is the religious beliefs in god the reason for the destructive religious conflicts, violence and wars and the chaos on planet Earth.

In order to answer this very important question properly and correctly, we should bear in mind that a belief is not a fact and this will require us to know the difference between the meaning of the word belief and the meaning of the word fact. Since ignorance leads to belief and believing, the review will enable us to find out why our ancient ancestor's geocentric ignorance of astronomy made them to misinterpret the fact of existence with the word belief and if it is proper for we with the heliocentric fact of astronomy to continue to use the word belief as the standard means of misinterpreting existence with religious, “scientific” and atheist beliefs.

Since astronomy is the only means of interpreting existence correctly with fact, this means that we have to use the heliocentric scientific fact and model of astronomy to reinterpret existence with fact and see why our ancient ancestor's geocentric model and ignorance of astronomy misled them to believe that our planet Earth is the only Planet in existence and is the magical beginning of existence by god or gods.

A belief is not a fact and since every one does not agree with a belief, we will then know why our ancient ancestor’s religious beliefs in god caused the religious conflicts, violence and wars on planet Earth.

LECTURE 1A

THE MEANING OF BELIEF

A belief is not a fact

A belief is not a fact. A belief is an assumption which is due to our ignorance. Our ignorance makes us to assume or believe that what we are told is true. We believe because we are not sure what we are told is true. This means that to believe is not the same as knowing something and when I say I believe you means that I am not sure you are telling me the truth.

The point is that when we know that something is a fact and is true we no longer believe it. This is because we now **know** that it is a fact and is real and true. This shows that we believe or have a belief when we are ignorant and do not know the fact about something. That was why our ancient ancestor's geocentric ignorance of astronomy made them to believe that our planet Earth is the only Planet in existence and is the magical beginning of existence by god or gods.

A belief is an assumption and is not a fact and to believe is not knowledge. This is why everyone does not agree with a belief or with the religious belief in god. That was why our ancient ancestor's religious beliefs in god made them to disagree and started the religious conflicts, violence and wars on planet Earth.

The religious conflicts, violence and wars started because the use of a belief to misrepresent or misinterpret a fact must lead to complications and

conflicts, and that was why the use of many religious beliefs in god to misinterpret the single fact of existence in **Ultra ALMIGHTY EXISTENCE** led to the religious conflicts, violence and wars and the chaos on Earth, just as placing a square peg in a circular hole must lead to complications and problems.

Existence is pure fact and should be properly interpreted with fact and not with belief or religious beliefs. We can not say we believe we are in existence, because the word belief or believe can not be used to express the fact of (our) existence. We normally say we **know** we are **in** EXISTENCE, because we know that EXISTENCE is pure fact and not a belief.

Unfortunately, we of the present age of space exploration, continue to use our heliocentric knowledge of astronomy to religiously believe that our planet Earth is the only Planet in existence and is the beginning of existence by god or gods and continue to live in our ancient ancestor's culture of belief, in which we now live with a confused understanding of the fact and reality of (our) existence and continue to disagree and suffer the consequences.

A belief is not a fact. This is why it is very wrong to misinterpret the fact of existence with the religious beliefs in god or with the “scientific” and atheist beliefs in nothing. That was why our ancient ancestor's misinterpretation of the fact of existence with the religious beliefs in god started the destructive religious conflicts, violence and wars and the chaos on Earth.

Unfortunately, we continue to sheepishly follow our ancient ancestors to misinterpret existence with the religious beliefs in many gods and live in conflict and with a confused sense of the fact of our homogeneity and peaceful singularity in **Ultra ALMIGHTY EXISTENCE**.

Existence is the purest fact and therefore can not be expressed or misinterpreted with belief or with the religious beliefs in god without having complications, conflicts and chaos. The pathetic situation on Earth is that the word belief is now generally used as the standard for misinterpreting the fact of existence with religious, “scientific” and atheist beliefs, all of which started with our ancient ancestor's religious beliefs in gods, which was due to their geocentric ignorance of astronomy.

Our ancient ancestor's geocentric model and ignorance of astronomy made them to believe that our planet Earth is the only Planet in existence, is orbited by the “rising” and “setting” Sun, is the stationary geocentric centre of the “universe” and is the instant magical beginning of existence by god or gods, all of which have been proved to be very wrong, but are still aggressively promoted by religion.

Our ancient ancestor's religious belief that our planet Earth is the only Planet in existence, is the geocentric centre of the “universe” and is the magical beginning of existence by god or gods was because they did not have telescopes with which to view the other planets in our Solar system. The use of a telescope would have made

them to know that our planet Earth is one of the nine planets moving round the Star or Sun in our Solar system.

If our ancient ancestors had telescopes and the heliocentric scientific fact of astronomy as we do, they would not have made the grievous mistake of believing that our planet Earth is the only Planet in existence or is the magical beginning of existence or by god or gods and there would have been no religious beliefs in god and no religious conflicts, violence and wars, which humanity of the present heliocentric age of astronomy and space exploration continue to suffer from.

This shows that Astronomy is the science for peace. We continue to suffer because we have refused to reinterpret existence with the heliocentric fact of astronomy, which makes us to **know Ultra ALMIGHTY EXISTENCE** infinitely Creates planets and stars in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse in which myriads of creations and we humans and gods are in existence and sustained.

Our ancient ancestor's religious beliefs that our planet Earth is the geocentric centre of the “universe”, shows that they believed that our Milky way galaxy is a Universe. Due to their geocentric ignorance of astronomy, our ancient ancestors did not know that our Milky way galaxy is one of the billions of galaxies in our Universe. Neither did they know that planets and a Star or Sun form a Solar system and that the myriads of Stars they were

seeing in the night sky, in our Milky way galaxy, have planets moving round them as Solar systems.

If they knew, they would not have believed that our planet Earth is the only Planet in existence or is the beginning of existence by god or gods and there will be no religious beliefs in god and no religious conflicts, violence and wars which continues to ravage humanity of the present age of space exploration, which have advanced telescopes and the heliocentric scientific fact of astronomy, which makes us to know that existence is an interconnected unitary system in which our planet Earth is part of our Solar system, our Solar system is part of our Milky way galaxy, our Milky way galaxy is part of our Universe which is part of a Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**. The heliocentric model of astronomy is the only means of interpreting existence with fact for Peace.

Unfortunately humanity of the present heliocentric age of astronomy and space exploration, have continued to be misguided by religion to continue to use our ancient ancestor's geocentric model and ignorance of astronomy to misinterpret existence with the religious belief that there was a beginning of existence with our planet Earth by god or gods and continue to suffer from the destructive religious conflicts, violence and wars when we should be using the heliocentric scientific fact of astronomy to reinterpret existence with the fact of the unitary system and singularity of existence in **Ultra**

ALMIGHTY EXISTENCE and coexist in perfect peace.

The use of a telescope by Galileo made us to know that our ancient ancestor's geocentric model of astronomy was very wrong and also makes us to know that their religious beliefs that our planet Earth is the only planet in existence and is the beginning of existence by god or gods was also wrong. This ultimately means that god or gods are not our true Creator.

It was our ancient ancestor's geocentric ignorance of astronomy and their general beliefs in gods and magic that made them to believe that our planet Earth is the magical beginning of existence by god or gods. This is not true, because their religious beliefs in god was due to their ignorance of astronomy.

Since to believe is not knowledge, this shows that our ancient ancestors believed that god or gods are our creators because they did not know **Ultra ALMIGHTY EXISTENCE**, infinite Creator of all cosmic creations and humans and gods. They believed that god or gods are our instant magical creators because they generally believed in gods and magic. It was their geocentric ignorance of astronomy that made them to misinterpret existence with different conflicting religious beliefs in a magical beginning of existence with our planet Earth by god or gods.

They believed that our planet Earth is the only Planet in existence and is the beginning of existence by a god because they did not have telescopes and the heliocentric

scientific fact of astronomy, which shows that our planet Earth is one of the planets in our Solar system which is part of the interconnected Multiversal unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

Our ancient ancestors generally believed in gods and magic. That was why they religiously believed that there was a beginning of existence when a god or gods magically made we humans and the other creatures and plants and (Sun) light to appear instantly on planet Earth, which was more of a fairytale than the scientific reality of existence.

Unfortunately, our ancient ancestor's religious beliefs that god or gods are our magical creators have made god or gods to be seen as our creators and humans of the present age of space exploration have continued to sheepishly follow our ancient ancestors to religiously believe in and worship god or gods as our creators.

This is very wrong and misleading, because god or gods are not **Ultra ALMIGHTY EXISTENCE**, Creator of stars and planets in Solar systems in Galaxies, in Universes in the Multiverse and humans and gods. The fact is that gods are in existence just as we humans are in existence and since to be in existence is to be Created to exist by **Ultra ALMIGHTY EXISTENCE**, this simply means that **Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence.

It is unfortunate that the present heliocentric scientific age of astronomy and space exploration,

which knows that we humans and the other creatures and plants and (Sun) light are not made to appear instantly with the magical wand of god or gods, but we have continued to sheepishly follow our ancient ancestor's religious beliefs in an instant magical beginning of existence with our planet Earth by god or gods and continue to suffer the consequences, when our heliocentric scientific knowledge of astronomy guides us to know the fact that our Sun, our planet Earth, our Solar system, our Milky way galaxy and our Universe are ultra scientifically constituted, interconnected, configured and organized as parts of the Multiversal unitary system and singularity of existence in ultra-scientific **Ultra ALMIGHTY EXISTENCE**.

It is very obvious that the religious beliefs in god caused the extreme religious hatred, enmity, conflicts, violence and wars, which also started the non-religious conflicts, violence and wars on Earth. This shows that the word belief is a source of conflicts, violence and chaos. This is because a belief is an assumption and is not a fact. This is why everyone does not agree with a belief or with the religious belief in god, because the many religious beliefs in god are not the single fact of existence in **Ultra ALMIGHTY EXISTENCE**.

The point is that a belief cannot be used to misinterpret a fact without complications and problems. That was why our ancient ancestor's use of the religious beliefs in god to misinterpret the fact of existence made them to disagree and their disagreement began the

destructive religious conflicts, violence and wars, which unfortunately continues to ravage humanity of the present age of space exploration, for sheepishly following our ancient ancestor's religious beliefs in god and enacting the freedom of religion, which is the right to choose and worship different gods as our different creators.

LECTURE 1B

THE MEANING OF FACT

A fact is a fact

A fact is what is generally known to exist and is real and true and always remains true because it is generally known to be true.

Existence is pure fact and not a belief.

Our planet Earth is part of a Solar system, is a fact and not a belief.

Our Solar system is part of our Milky way galaxy, is a fact and not a belief.

Our Milky way galaxy is part of our Universe, is a fact and not a belief.

Our Universe is part of a Multiverse, is a fact and not a belief.

The Multiverse is part of the infinity of existence in **Ultra ALMIGHTY EXISTENCE**. This is the pure fact of existence and is not the religious beliefs in god and our planet Earth.

As shown above, the heliocentric scientific fact of astronomy makes us to know that existence is an interconnected unitary system in which stars and planets are in Solar systems, solar systems are in Galaxies, galaxies are in Universes and universes are in the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**. This means that to be in existence is to be Created to exist as part of the unitary

system and singularity of existence by ultra scientific **Ultra ALMIGHTY EXISTENCE**. This is the pure fact of existence and is not a belief or the religious beliefs in a magical god.

The interconnected unitary system of existence in **Ultra ALMIGHTY EXISTENCE** is a known fact of astronomy and existence. The fact is that stars and planets are in Solar systems, solar systems are in Galaxies, galaxies are in Universes and universes are in the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**. This means that there was never a time when our planet Earth was the only Planet in existence or was a beginning or an implied ending of existence by god or gods.

It was our ancient ancestor's geocentric ignorance of astronomy, through their bare eyes, and their general beliefs in gods and magic that misled them to assume and believe that our planet Earth is the only Planet in existence and is the magical beginning of existence by god or gods. Unfortunately, god is now being used to misrepresent **Ultra ALMIGHTY EXISTENCE**, Creator of the Multiverse and humans and gods and our ancient ancestor's religious beliefs in god continues to be the standard means of misinterpreting existence with beliefs.

We of the present heliocentric age of space exploration know the fact that our planet Earth is part of our Solar system, which is part of our Milky way galaxy

and that our Milky way galaxy is part of our Universe, which is part of the Multiverse in the unitary system of existence in **Ultra ALMIGHTY EXISTENCE**.

This is why we can not say we believe we are in existence, because we **know** the fact that we and our planet Earth are part of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE**. We can not say we believe we are in existence because we **know** that to be in existence is to be Created to exist by **Ultra ALMIGHTY EXISTENCE**.

We normally say that we know we are **in EXISTENCE** because we **naturally know** the fact that **Ultra ALMIGHTY EXISTENCE** Create us to be in existence and sustained. This is why we normally say that all creations and we humans and gods are **in EXISTENCE**, because we naturally **know Ultra ALMIGHTY EXISTENCE** Creates all cosmic creations and we humans and gods to be in existence and sustained.

The heliocentric scientific fact of astronomy and the unitary system of existence is the reason why everyone agrees with the fact that **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes and we humans and gods to be in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we are to direct our worship and prayers for there to be the perfect peace for Paradise on Earth.

The heliocentric scientific fact of astronomy, which shows the interconnected unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**, is the only means of interpreting existence with fact and with a single interpretation, which will unite humanity on Earth to put an end to the religious beliefs in god and stop the destructive religious conflicts, violence and wars and secure the Perfect Peace we need to fulfill Paradise already due on Earth.

The heliocentric scientific fact of astronomy is the only means of interpreting existence with fact in order to restore unity and perfect peace on Earth. This is because the heliocentric scientific fact of astronomy guides humanity on Earth to **know Ultra ALMIGHTY EXISTENCE** infinitely Creates the interconnected unitary system of stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes, universes in the Multiverse in which all creations and we humans and gods are in existence and sustained.

The heliocentric fact of astronomy is the stable foundation of the knowledge of the reality of existence. This is why the heliocentric scientific fact of astronomy must be used to reinterpret existence with fact, so that we humans on Earth will have and keep in mind the unifying fact of our homogeneity and singularity in **Ultra ALMIGHTY EXISTENCE** and co-exist in perfect peace for the fulfillment of Paradise on Earth.

Fact promotes peace because everyone agrees with

fact and with the fact that **Ultra ALMIGHTY EXISTENCE** infinitely Creates planets and stars in Solar systems, solar systems in Galaxies, galaxies in Universes in the Multiverse in which humans and gods are in existence.

LECTURE 2

EXISTENCE IS PURE FACT AND NOT A BELIEF

The comparison between the meaning of the word belief and the meaning of the word fact shows clearly that a belief is not a fact and that the religious beliefs that a god is our creator is not the fact of (our) existence. A belief is an assumption and this is why everyone does not agree with a belief or with the religious beliefs in god and which is the reason for the destructive religious conflicts, violence and wars on Earth.

Since a belief is not a fact, it is very wrong to use the religious beliefs in god to misinterpret the fact of existence in **Ultra ALMIGHTY EXISTENCE**, or to misrepresent **Ultra ALMIGHTY EXISTENCE** with god or gods. The continuing use of our ancient ancestor's religious beliefs in god as the standard for misinterpreting the fact of existence with religious, "scientific" and atheist beliefs, is the reason why humans of the present age of space exploration continue to live in our ancient ancestor's culture of belief in which we continue to live with a confused sense of the fact and reality of our peaceful homogeneity and singularity in **Ultra ALMIGHTY EXISTENCE**.

Ignorance leads to belief and believing and that was why our ancient ancestor's geocentric ignorance of

astronomy made them to believe that our planet Earth is the only planet in existence and is the instant magical beginning of existence by god or gods.

If our ancient ancestors had telescopes to view outer space, they would have known that our planet Earth is one of the nine planets moving round the Star or Sun in our Solar system.

If our ancient ancestors knew that stars and planets form Solar systems, they would have known that the stars they were seeing in the night sky have planets moving round them and this knowledge would have made them to know that there are billions or trillions of planets in our Milky way galaxy.

With this knowledge of astronomy, they would not have made the grievous mistake of believing that our planet Earth is the only Planet in existence or is the beginning of existence by a god or gods and there would have been no religious beliefs in god and no religious conflicts, violence and wars on planet Earth.

Unfortunately, the religious beliefs in god and the destructive religious conflicts, violence and wars continues to ravage humanity of the present heliocentric age of space exploration which have telescopes stationed on Earth and in outer space and regularly travels into space and sends space probes to explore the other planets in our Solar system.

We now have the heliocentric scientific fact of astronomy with which to reinterpret existence with fact and with a single interpretation and be united by the

unitary fact of existence in **Ultra ALMIGHTY EXISTENCE** and coexist in perfect peace.

Most Unfortunately, we continue to use our ancient ancestor's geocentric ignorance of astronomy to religiously believe in a beginning with our planet Earth by god or gods and live with conflicts and violence. The point is that if our ancient ancestors had telescopes with which to view the other planets in our Solar system as we do, they would not have made the grievous mistake of believing that our planet Earth is the only Planet in existence or is the beginning of existence by god or gods and there will be no religious conflicts, violence and wars on planet Earth.

This shows that Astronomy is the Science for Peace, because it is the science for interpreting existence correctly with fact. This is why it is compulsory for everyone to follow developments in astronomy and space exploration, so as to know and keep in mind that the heliocentric scientific fact of astronomy have already made us to know that existence is an interconnected unitary system, in which our planet Earth is one of the planets in our Solar system, our Solar system is one of the myriads of solar systems in our Milky way galaxy, our Milky way galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**.

The heliocentric fact of the interconnected unitary system of existence in **Ultra ALMIGHTY**

EXISTENCE, makes us to know that to be in existence is to be Created to be in existence by **Ultra ALMIGHTY EXISTENCE** and since humans and gods are in existence, this directly means that **Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence and to **Ultra ALMIGHTY EXISTENCE** we humans and gods are to direct our worship and prayers.

Ultra ALMIGHTY EXISTENCE is not a god or a belief. The pure fact of existence is that **Ultra ALMIGHTY EXISTENCE** is **Ultra ALMIGHTY EXISTENCE**, infinite Creator of all creations. It was our ancient ancestor's geocentric model and ignorance of astronomy and their general beliefs in gods and magic that misled them to believe that there was a magical beginning of existence with our planet Earth by god or gods.

The truth is that there was never a beginning or an implied ending of existence or with our planet Earth or by god or gods. This is because god is not **Ultra ALMIGHTY EXISTENCE**, the infinite Creator of stars and planets in Solar systems in Galaxies in Universes in the Multiverse.

This is why there is a great difference between praying with fact and praying with belief just as there is a great difference between praying with the fact of existence in **Ultra ALMIGHTY EXISTENCE** and praying with the religious beliefs in god. The fact of existence is that **Ultra ALMIGHTY EXISTENCE**

infinitely Creates all cosmic creations and humans and gods to be in existence and sustained.

For there to be the perfect peace for Paradise on Earth, the heliocentric scientific fact of astronomy, which clearly shows the interconnected unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**, must be used to reinterpret existence with fact and with a single unifying interpretation.

This means that we must stop using our ancient ancestor's geocentric model and ignorance of astronomy to misinterpret existence with the religious beliefs in a beginning with our planet Earth by god or gods, which is the reason for our confusion and the religious conflicts, violence and wars and the discord and chaos on Earth, because the religious beliefs in god is not the fact of existence.

LECTURE 3

THE RELIGIOUS BELIEFS IN GOD IS NOT THE FACT OF EXISTENCE

It is very unfortunate that we of the present age of space exploration, which have the heliocentric scientific fact of astronomy that was confirmed with a telescope by Galileo, have refused to use the heliocentric fact of astronomy to reinterpret existence with fact for peace. We have instead continued to use our ancient ancestor's geocentric model and ignorance of astronomy to believe that the Sun is “rising” and “setting”, as if the Sun is actually moving round our planet Earth and continue to religiously believe that our planet Earth is the magical beginning of existence by god or gods and continue to live with a confused sense of the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

Our confusion is why we continue to be misled by religion to commit unnecessary religious violence and atrocities against fellow humans, when we should be using our heliocentric scientific fact and knowledge of astronomy to interpret existence with the fact of our homogeneity in the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE** and be united by the unitary fact of existence to coexist in perfect peace for the fulfillment of Paradise already due on Earth.

The use of a telescope by Galileo to discover the heliocentric scientific fact of astronomy, made us to know that our planet Earth is one of the nine planets in our Solar system. This important discovery proved that our ancient ancestor's religious beliefs that our planet Earth is the only planet in existence and is the beginning of existence by god was very wrong and misleading.

This means that god is not our true Creator, because god is not **Ultra ALMIGHTY EXISTENCE**, infinite Creator of stars and planets in Solar systems, solar systems in Galaxies, galaxies in the Universes in the Multiverse. The truth is that there was never a beginning or an implied ending of existence, or with our planet Earth or by god or gods because there was never a time when our planet Earth was the only Planet in existence.

The fact of existence is that ultra-scientific **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems in Galaxies in Universes in the Multiverse and all creations and we humans and gods to be in existence and sustained.

This ultimately means that **Ultra ALMIGHTY EXISTENCE** is Creator of humans and gods. Our ancient ancestor's religious beliefs that god or gods are our creators in a magical beginning with our planet Earth was wrong and is not true, because their religious beliefs in god was due to their geocentric ignorance of astronomy and their general beliefs in gods and magic. Through the use of the telescope, the heliocentric scientific fact of astronomy makes us to know that our planet Earth have never been alone, or is stationary or is

orbited by the Sun. We now know very well that our planet Earth is one of the nine planets orbiting round the Sun or Star in our Solar system at the incredible orbital speed of a 108000km/hr, as part of a scientifically configured Solar system, which is part of a scientifically configured Milky way galaxy, which is part of a scientifically configured Universe which part of a scientifically configured Multiverse in the infinity of existence in ultra scientific **Ultra ALMIGHTY EXISTENCE**.

The interconnected scientifically active system of planets and stars in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse, shows clearly that our planet Earth have never been alone, inactive or stationary. This shows that there was never a time or a beginning of existence when god or gods magically made we humans and other creatures and plants and Sun light to appear instantly on a lonely, unscientific, stationary, inactive, and unconnected “planet Earth”, which is more of a fairytale than the scientific reality of existence. The scientific fact and reality of existence is that we humans and the other creations in existence are ultra scientifically constituted to scientifically develop over time.

We know that we humans come into existence through a scientific process which begins with the scientific fertilization of an egg in the scientifically constituted woman's womb and the egg takes time to

develop scientifically into an embryo and the embryo takes time to develop scientifically to form the baby and the baby takes time to scientifically develop fully before being scientifically ejected from the womb at birth into a special scientific environment, in which the baby breathes scientific air, eats scientific food and drinks scientific water, all of which are made possible and controlled by ultra scientific **Ultra ALMIGHTY EXISTENCE**.

The scientific constitution of we humans and creations in existence by ultra scientific **Ultra ALMIGHTY EXISTENCE**, should guide humans of the present age of space exploration to **know Ultra ALMIGHTY EXISTENCE** is our ultra-scientific Creator. This is why we must use the scientific constitution of creations in existence and the heliocentric scientific fact of the interconnected unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE** to reinterpret existence with fact and with a single interpretation, which will unite and guide humans on Earth to stop their religious beliefs in god and the unnecessary and wasteful religious conflicts, violence and wars which is preventing Paradise on planet Earth.

LECTURE 4

ULTRA ALMIGHTY EXISTENCE CREATE HUMANS AND GODS TO BE IN EXISTENCE

Through the use of telescopes stationed on Earth and in outer space and with space probes sent to explore the other planets in our Solar system, we of the present age of space exploration now have the correct heliocentric scientific fact of astronomy, which shows clearly that existence is a single interconnected unitary system in which our planet Earth is one of the planets in our Solar system, our Solar system is one of the myriads of solar systems in our Milky way galaxy, our Milky way galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**.

The fact of existence is that stars and planets are in Solar systems, solar systems are in Galaxies, galaxies are in Universes and universes are in the Multiverse and they are all ultra-scientifically constituted, actively interconnected, configured and organized as parts of the unitary system and singularity of existence in ultra-scientific **Ultra ALMIGHTY EXISTENCE**.

This simply means that all creations in existence are ultra-scientifically constituted to be in existence by ultra-scientific **Ultra ALMIGHTY EXISTENCE**.

Since we humans and gods are in existence, this

means that **Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence and to **Ultra ALMIGHTY EXISTENCE** we humans and gods are to direct our worship and prayers.

We know **Ultra ALMIGHTY EXISTENCE** Creates the Multiverse and all creations and we humans and gods to be in existence. This is why we normally say that we know that Stars, Planets, Galaxies, Universes and all creations and humans and gods are **in EXISTENCE**. We can not say we believe we are in existence, even though we humans on planet Earth believe that god or gods are our magical creators.

We can not believe we are in existence because (our) existence is a fact which can not be expressed with belief or with the religious beliefs in god without having complications, confusion and conflicts. We humans normally say we know that we are **in EXISTENCE**, because we naturally know that to be in existence is to be Created to exist by **Ultra ALMIGHTY EXISTENCE** and to **Ultra ALMIGHTY EXISTENCE** we humans are to direct our worship and prayers for there to be the perfect peace for Paradise already due on planet Earth.

It is very unfortunate that despite our heliocentric scientific knowledge of astronomy and our consciousness of the reality of the unitary system of existence, we of the present age of space exploration continue to be confused and misled by our ancient ancestor's religious beliefs that magical human-like god or gods are our creators in a beginning with our planet

Earth, as if (our) existence is a piece of cake.

We can not blame our ignorant ancient ancestors, because their religious beliefs in god was due to their geocentric ignorance of astronomy, through their bare eyes. Looking into space with their eyes, they believed that our Milky way galaxy is a “universe” or is the entire existence. That was why they believed that our planet Earth is orbited by the Sun as the stationary geocentric centre of the “universe” and is the only planet in existence and is the beginning of existence by the magical wand of a god.

Their religious beliefs in god was because their geocentric model of astronomy, through their bare eyes, presented existence to be very small and simple enough to be made to appear instantly with the magical wand of a god. This shows that their understanding of our Milky way galaxy was very wrong. They probably thought that the stars they were seeing in the night sky are decorative lights that are alone and not far away.

If our ancient ancestors knew that the billions of stars they were seeing in our Milky way galaxy have planets moving round them as Solar systems and that they are trillions of kilometers away from our Solar system and trillions of kilometers apart and that our extremely vast Milky way galaxy is one of the hundreds of billions of galaxies in our Universe and that our incredibly vast Universe is one of the Universes in a Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**, they would not have made the grievous

mistake of believing that our planet Earth is the only Planet in existence or is the beginning of existence or believed that human-like god or gods are our creators, as if existence is a piece of cake.

Their knowledge of the heliocentric fact of astronomy would have guided them to know that the unitary system of existence in **Ultra ALMIGHTY EXISTENCE** is infinite, with no beginning and no ending in time, space and possibilities.

Our ancient ancestors believed in different human-like god or gods as our different creators and that was why they gave them different names and used him and made offerings to them, because gods need sustenance like we humans. The point is that we humans can not make offerings to **Ultra ALMIGHTY EXISTENCE** or use different names or him, as is done to god or gods, even if religion uses god or gods to misrepresent **Ultra ALMIGHTY EXISTENCE**.

The truth is that we have nothing to offer to **Ultra ALMIGHTY EXISTENCE**. This is because **Ultra ALMIGHTY EXISTENCE** is **Ultra ALMIGHTY EXISTENCE**, infinite Creator of everything and all cosmic creations and we humans and gods to be in existence and sustained.

We have nothing to offer than to worship and pray direct to **Ultra ALMIGHTY EXISTENCE** and experience the wonderful reality of existence, which will enable us to know that there is a great difference between praying to human-like god or gods as our creators and

praying to **Ultra ALMIGHTY EXISTENCE**, the Creator of humans and gods to be in existence and sustained.

Unfortunately, this wonderful, peaceful, secure and enriching essence and reality of existence is what we of the present age of space exploration are missing, by allowing religion to continue to mislead us from reinterpreting existence with the heliocentric scientific fact of astronomy, which guides us to know that our planet Earth, our Solar system, our Milky way galaxy and our Universe are parts of the interconnected single unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**. This pure fact of existence is meant to unite humans on Earth to interpret existence with fact and live in perfect peace and in Paradise, in which we will experience and enjoy the wonderful essence and peaceful reality of existence in **Ultra ALMIGHTY EXISTENCE**.

Instead of the present age of space exploration to start using the heliocentric scientific fact of astronomy to reinterpret existence with fact and **know Ultra ALMIGHTY EXISTENCE** Create us to be in existence and experience the wonderful reality of existence, we have continued to be misled by religion to use our ancient ancestor's wrong and obsolete geocentric model of astronomy and their misleading, disuniting and conflicting religious beliefs in god as the standard means of misunderstanding and misinterpreting existence with religious, "scientific" and atheist beliefs and continue to

live in a culture of belief in which we continue to be confused to fear and avoid peaceful reality.

This is because we are now living with a confused sense of the fact of our homogeneity and peaceful singularity in **Ultra ALMIGHTY EXISTENCE**. This is why we continue to suffer from the confusing and misleading religious beliefs in god and the unnecessary religious hatred, enmity, conflicts, violence, wars and the chaos on planet Earth.

We of the present scientific age of space exploration continue to suffer because we are allowing ourselves to be misled by religion to erroneously use our heliocentric scientific fact and knowledge of astronomy to believe, like our ancient ancestors, that the Sun is "rising" and "setting", as if the Sun is actually moving round our planet Earth and continue to believe, like our ancient ancestors, that our planet Earth is the only planet in existence (with life) and is the instant magical beginning of existence by god or gods and continue to misrepresent ultra-scientific **Ultra ALMIGHTY EXISTENCE** with magical god or gods.

This is why the culture of (religious) belief have misguided and confused us to lost our sense of seeing the deceptive side of religion, by enacting the freedom of religion to perpetuate the religious beliefs in god and escalate the religious conflicts, violence and wars, which is preventing the perfect peace we need to fulfill Paradise already due on Earth.

LECTURE 5

RELIGION PREACHES PEACE AND MORALITY AND ALSO GENERATES HATRED, VIOLENCE AND WARS.

After Galileo used a telescope to prove that our ancient ancestor's geocentric model of astronomy is wrong and that their religious beliefs in god is also wrong, the institution of religion have continued to aggressively promote our ancient ancestor's religious beliefs in god and continue to keep humans on Earth in their culture of (religious) belief in which we can no longer tell the difference between belief and fact, right and wrong, illusion and reality, religious deceit and honesty and the difference between peace and conflict.

This is the reason why we humans on Earth do not notice that religion claims to preach peace and morality and is also engaging us in the destructive religious hatred, enmity, violence and wars which is destroying our peace and morality.

The prevailing culture of (religious) belief is the reason why humans on Earth can not notice that religion is misleading and deceiving us by claiming to preach peace and morality, while religion is also generating and engaging us in the destructive religious conflicts, hatred, violence and wars which is destroying our peace of mind and moral values.

The hypocrisy in the religious beliefs in god is the reason why religion is deceptively asking us to love our

neighbours, but at the same time religion is also indoctrinating and teaching us to religiously believe that hating and committing religious violence and atrocities against our neighbours is right and justified.

We naturally know that it is very wrong to do so, because, irrespective of our different religious beliefs in different gods, we humans breathe the same scientific air, survive on the same scientific food nutrients and drink the same scientific water as a homogeneous family and singularity in ultra scientific **Ultra ALMIGHTY EXISTENCE.**

Despite our knowledge of our homogeneity as a human family, the “United Nations” on planet Earth have enacted the freedom of religion which is the right to choose and worship different gods as our different creators, so that we can continue to hate one another and use violence to commit religious atrocities against our neighbours.

LECTURE 6

THE FREEDOM OF RELIGION IS AGAINST HUMAN PEACEFUL COEXISTENCE

We on planet Earth have been so brainwashed to religiously believe that gods are our different creators. This is the reason for the human conflicting plurality in different gods and our confused sense of the fact of our homogeneity and peaceful singularity in **Ultra ALMIGHTY EXISTENCE**. Our confused sense is the reason why the “United Nations” enacted the freedom of religion, as the human right to choose and worship different gods as our different creators.

The “United Nations” enacted the freedom of religion in a culture of belief, in which they believed that the freedom to choose and worship different gods as our different creators will stop the religious conflicts, violence and wars and that it will promote human peaceful coexistence, when it is very obvious to the “United Nations” that the worship of god or gods as our creators is the reason for the destructive religious conflicts, violence and wars on planet Earth.

The enactment of the freedom of religion is most unfortunate, because the age old religious conflicts, violence and wars have already shown us that the worship of god or gods as our creators is very wrong. This experience is supposed to guide the “United Nations” to see that the enactment of the freedom to

worship gods as our creators will definitely perpetuate and escalate the destructive religious conflicts, violence and wars on planet Earth.

Before drafting and enacting the freedom of religion, as part of the Universal Declaration of Human Rights, the “United Nations” who were already in the heliocentric age of astronomy and were seeing the religious violence and atrocities, should have done a proper review of the foundation of our ancient ancestor's religious beliefs in god, in order to find out the reason for the destructive religious conflicts, violence and wars. This important review would have guided the “United Nations” to know that our ancient ancestor's religious beliefs in a magical beginning of existence with our planet Earth by god was due to their geocentric model of astronomy, which have already been proved wrong by Galileo.

This valuable knowledge would have guided the conflicting “United Nations” to see that the enactment of the freedom to choose and worship gods as our creators will be very wrong, because the religious beliefs in god is not based on the heliocentric fact of astronomy and existence, and that was why the religious beliefs in god caused the destructive religious conflicts, violence and wars on planet Earth.

The conflicting “United Nations” should have used the available heliocentric fact of astronomy to do a proper review in order to determine why our ancient ancestor's geocentric model of astronomy led to their religious beliefs in a beginning with our planet Earth by god and the religious conflicts, violence and wars, by

keeping in mind that the heliocentric scientific fact of astronomy have already shown us clearly that existence is an interconnected unitary system in which our planet Earth is part of our Solar system, our solar system is part of our Milky way galaxy and that our Milky way galaxy is part of our Universe which is part of the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE** and to correlate the fact of the unitary system of existence with the fact that all humans exist with the same scientific air, food and water, as a homogeneous family in the singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

The geocentric foundation of our ancient ancestor's conflicting religious beliefs in god and their religious conflicts, violence and wars, should have guided the “United Nations” to know that the freedom to choose and worship gods as our creators will be against the heliocentric fact of astronomy and the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE** and will also be against the fact of human homogeneity and singularity in **Ultra ALMIGHTY EXISTENCE**.

The common sense review would have guided the United Nations to see that the freedom to worship different gods as our different creators will be in conflict with the fact of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE** and will also be against other human rights such as the freedom of associating and living together freely as a homogeneous family and

will be against freedom from religious violence, atrocities and oppression and will be totally against human peaceful coexistence.

The conflicts between the freedom of religion and the fact of the unitary system of existence and with the other human rights, should have been obvious to the “United Nations”, to see that the freedom of religion is very wrong, because it will perpetuate the conflicting religious beliefs in god and escalate the religious conflicts, violence and wars and should not be enacted.

The “United Nations” did not notice the obvious conflicts and crises in the freedom of religion because the freedom of religion was enacted in the prevailing culture of (religious) belief, in which they could not tell the difference between belief and fact, right and wrong, religious deceit, hypocrisy and honesty and the difference between peace and conflicts.

The enactment of the freedom of religion by the “United Nations”, shows the extent to which our ancient ancestor's religious beliefs in god and their culture of belief have been used to brainwash humans on Earth to the point of confusing our sense of the fact of our homogeneity and singularity in existence in **Ultra ALMIGHTY EXISTENCE**, by no longer able to tell the difference between fact and belief, right and wrong, reality and illusion, male and female, honesty and religious deceit and hypocrisy and the difference between peace and conflict.

The dominant influence of the prevailing culture of

(religious) belief, is the reason why humanity on Earth have lost the sense and will of questioning religion, for claiming to preach peace and morality and for also engaging us in the destructive religious hatred, enmity, violence and wars which is destroying our peace of mind, moral values and peaceful coexistence.

In the prevailing culture of belief on planet Earth, the conflicting, misleading, confusing, deceptive, hypocritical and corrupting nature of belief are the human guiding principles. This is why humans on planet Earth now believe that they are doing the right thing when they should know that they are actually doing the wrong thing. This is because the culture of belief makes us to believe that doing the wrong thing is easier, more acceptable and justified than doing the right thing.

This is very wrong, because it is not easier and more acceptable to do the wrong thing than to do the right thing. Our point of view and sense of value and our behavior are influenced by the type of culture we are in. In the prevailing culture of belief we are being misguided to believe that we are doing the right thing, when we are actually doing the wrong thing, just as religious believers are being misguided by their religious beliefs to believe that they are doing the right thing by hating and committing religious violence and atrocities against fellow humans, when they are actually doing the wrong thing.

In a culture of fact we will be guided by the true nature of fact to know the difference between belief and

fact, right and wrong and the difference between peace and conflicts and know that committing religious violence and atrocities against fellow humans is wrong and unjustified. This is because we know that we humans are a homogeneous singularity in **Ultra ALMIGHTY EXISTENCE** and not a heterogeneous plurality in gods, because we exist on the same air, food nutrients and water.

This means that in a culture of fact, it will be easier and more acceptable to do the right thing than to do the wrong thing, because everyone is being guided by fact and a positive sense of value, while in the culture of belief it is easier and more acceptable to do the wrong thing than to do the right thing, because everyone is being misguided by belief and a negative sense of value. Galileo's use of a telescope to confirm the heliocentric scientific fact of astronomy and existence was meant to be a turning point from our ancient ancestor's geocentric era of astronomy, their religious beliefs in god, their culture of belief and their destructive religious conflicts, violence and wars.

Instead, the institution of religion have continued to use our ancient ancestor's geocentric model of astronomy to aggressively promote their religious beliefs in their particular god and continue to promote hatred, violence and atrocities at the expense of peace and stability on Earth.

Religion want to continue to benefit from the deceptive, hypocritical and exploitative religious beliefs

in god, that was why Galileo was persecuted by religion and was forced to withdraw his discovery or be burnt alive on the stake, for saying that our planet Earth and other planets are moving around the Sun.

This was because the religious belief in god is based on our ancient ancestor's geocentric model of astronomy which states that the Sun is moving round our planet Earth. Religion fears that the disapproval of their geocentric model of astronomy will collapse the foundation of their religious beliefs in god, which the institution of religion does not want to happen.

It is very unfortunate that even after religion agreed with Galileo that their geocentric model of astronomy is wrong, we on the most beautiful, diverse, interesting and resourceful Planet, which have interesting scientific plants, animals, birds, reptiles, insects and fishes etc. etc. in our Solar system, have continued to be misled by religion to continue to use the geocentric model to believe in god and live with unnecessary conflicts, violence and atrocities against one another, due to our religious beliefs that a magical god or gods are our creators in a beginning with our planet Earth, when the heliocentric scientific fact of astronomy and the scientific constitution of creations in existence have made us to **know** ultra-scientific **Ultra ALMIGHTY EXISTENCE** Creates we humans be in existence, coexist in peace and sustained as a homogeneous family.

Ultra ALMIGHTY EXISTENCE provided we humans with intellect and the scientific knowledge to

discover and use the various scientific resources to design and produce useful products and construct interesting structures to make us live comfortably. Unlike our ancient ancestors, we have traveled outside our planet Earth as far as to the moon and regularly send space probes to explore the other planets in our Solar system and use sophisticated telescopes stationed in outer space to collect a lot of valuable information about the planets in our Solar system and beyond.

Unfortunately, we of the present heliocentric scientific age of astronomy and space exploration, are still using our scientific knowledge of astronomy to believe that our planet Earth is the only Planet in existence and is the beginning of existence by god and still live in our ancient ancestor's culture of belief, in which we have a confused and conflicting understanding of the fact and reality of our scientific existence in **Ultra ALMIGHTY EXISTENCE**. This is because the freedom to choose and worship different gods as our different creators, have confused us to be seeing existence in different conflicting ways.

This is why our conflicting religious beliefs in god, the culture of belief and the religious hatred violence and wars have turned our beautiful Planet into the Planet where we are so confused and insecure and now see extreme hatred, enmity, violence and wars and all sorts of vices as normal human traits and way of life. This is very wrong, because our homogeneity as a human family is not meant for us to misinterpret existence in different

ways or live in conflict and with violence and atrocities against one another.

As is shown by the history of religion, it is the religious beliefs in god that brought the religious conflicts, extreme hatred, enmity, violence and wars into planet Earth. If our ancient ancestors had telescopes and used the heliocentric scientific fact of astronomy to interpret existence with fact and **know Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies , galaxies in Universes, universes in the Multiverse, and worshiped and prayed to **Ultra ALMIGHTY EXISTENCE** as a family, we will not have the religious beliefs in god and the destructive religious hatred, enmity, conflicts, violence and wars on planet Earth.

This is because the heliocentric fact of astronomy would have guided our ancient ancestors to interpret existence with fact and a single interpretation and we will be living in perfect peace as a human family and United Nations and not as religious enemies. This is why the freedom of religion must be urgently revoked to restore the perfect peace for Paradise on Earth.

LECTURE 7

REVOKE THE FREEDOM OF RELIGION

For there to be perfect peace and a true United Nations on planet Earth, the freedom of religion must be revoked. This is because the freedom of religion is perpetuating and promoting the misleading, deceptive, hypocritical, conflicting, violent and destructive religious beliefs in god and is supporting the deceptive and hypocritical roles of religion in claiming to preach peace and morality, while teaching us to hate and commit violence and atrocities against our neighbours. The freedom of religion must be revoked, because it is totally against human peaceful coexistence as a homogeneous entity and family.

The “United Nations” knows that our ancient ancestor's geocentric model of astronomy, which made them to believe that our planet Earth is the only planet in existence and is the beginning of existence by gods, have been proved wrong and replaced with the heliocentric scientific fact of astronomy, which shows clearly that our planet Earth is part of a Solar system which is part of an interconnected unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

We of the present heliocentric age of astronomy cannot neglect this very important correction for our peace, by continuing to use our ancient ancestor's geocentric ignorance of astronomy to believe that our

planet Earth is the only Planet in existence and is the beginning of existence by god or gods and suffering from their destructive religious violence and wars.

The “United Nations” and religions know that our ancient ancestor's geocentric model of astronomy is wrong and has been corrected and replaced with the heliocentric model of astronomy and which makes it necessary that their many religious beliefs in god should also be replaced with the fact of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE**, so as to stop the religious conflicts, violence and wars. Instead the “United Nations” continue to promote the religious beliefs in gods and supporting religion's deceptive claim of preaching peace and morality while generating the religious hatred, violence and atrocities, which is destroying our peace and morality.

The “United Nations” and present day religions are supposed to know that since our ancient ancestor's geocentric model of astronomy is wrong, it follows that their religious beliefs that there was a beginning with our planet Earth by god or gods is also wrong and that the religious conflicts, violence and wars are wasteful and unnecessary.

Instead of the “United Nations” and present day religions to start using the current heliocentric scientific fact of astronomy to reinterpret existence with the fact of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE** and make the necessary corrections to promote peace and stability, the “United Nations” have

continued to support religions to continue to aggressively and violently promote their religious beliefs in their particular god at the expense of peace and stability on Earth.

The institution of religion and the “United Nations” know that the heliocentric model of astronomy is based on science and not on magic. They also know that we humans and the other creatures, plants and (Sun) light are not made to appear instantly with the magical wand of a god or gods and that we humans are not heterogeneously created differently by different gods to exist differently with or without air, food and water as a plurality in different gods.

The single fact of existence which the institution of religion and the “United Nations” know very well is that our planet Earth is part of a scientifically configured Solar system and that we humans, including the religious believers in god, are ultra scientifically constituted and homogeneously Created by **Ultra ALMIGHTY EXISTENCE** to develop over time and exist on the same scientifically constituted air, food and water. Unfortunately, this unifying fact of existence is being neglected at the expense of peace and stability on planet Earth.

The heliocentric scientific fact of astronomy guides religions and the “United Nations” to know that our planet Earth is part of our Solar system, which is part of our Milky way galaxy, and that our Milky way galaxy is part of our Universe which is part of the Multiverse and

that they are all ultra-scientifically constituted, configured and organized as parts of the interconnected unitary system and singularity of existence in ultra-scientific **Ultra ALMIGHTY EXISTENCE**.

This is why the “United Nations” and religious believers in god normally say that all creations and we humans and gods are **in** EXISTENCE. This is because religious believers in god naturally know that to be in existence is to be Created to exist by **Ultra ALMIGHTY EXISTENCE**, the Creator of humans and gods, which religions are misrepresenting with god or gods, as if existence is a piece of cake.

The fact of existence is that we humans are scientifically constituted to exist on the same scientifically constituted air, food and water just as our planet Earth and other planets, solar systems, galaxies, universes are scientifically constituted to exist as parts of the unitary system of existence by **Ultra ALMIGHTY EXISTENCE**.

This simply means that to be in existence is to exist as part of the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**. This is why everyone, including religious believers, normally say that all creations and we humans and gods are in existence, because they naturally know that to be **in** EXISTENCE is to be Created to exist by **Ultra ALMIGHTY EXISTENCE**.

Unfortunately, the “United Nations” and the institution of religion have refused to use the

heliocentric fact of astronomy to reinterpret existence with fact and preach the fact that **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes, universes in the Multiverse in which all the wonderful creations and we humans and gods are in existence as a singularity in **Ultra ALMIGHTY EXISTENCE**.

By preferring to keep humanity on Earth in bondage to our ancient ancestor's misleading religious beliefs in god and their destructive religious conflicts, violence and wars, shows that religions are more interested in exploiting the opportunities provided by our ancient ancestor's conflicting religious beliefs in god and their religious conflicts, violence and wars.

The exploitative opportunities provided by the conflicting religious beliefs in god, is the reason why religions continue to mislead, misdirect and prevent we of the present age of space exploration from using the heliocentric scientific fact of astronomy to reinterpret existence with fact, which will make us to know that all creations and humans and gods are parts of the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

The institution of religion knows that the use of the heliocentric scientific fact of astronomy to reinterpret existence with fact, will unite humans on Earth to stop the religious beliefs in god and the religious conflicts, violence and wars through which religions are disuniting and exploiting us for their own benefits.

That was why Galileo was arrested and persecuted by religion for discovering the heliocentric model of astronomy, which proved that the geocentric model of astronomy, which states that the Sun moves round our planet Earth, is wrong.

Galileo was persecuted and forced to withdraw his discovery because the religious beliefs in god are based on the geocentric model of astronomy and to invalidate the geocentric model of astronomy will collapse the foundation of their religious beliefs in god.

The use of the heliocentric scientific model of astronomy to reinterpret existence with fact, will free humanity on Earth from our ancient ancestor's conflicting religious beliefs in god, their culture of belief and their destructive religious hatred, violence and wars and usher us into a new era of perfect peace, in which we will live in a culture of fact and be guided to know the differences between belief and fact, right and wrong, reality and illusion, and the difference between honesty and religious deceit and hypocrisy and the difference between peace and conflict.

The fact of existence and the culture of fact will enable us to notice that the institution of the religious beliefs in god is deceiving us by preaching peace and morality while teaching us to hate, have enemies and commit religious violence and atrocities against our neighbours, thereby destroying our peaceful coexistence and moral values.

The culture of fact will guide us to know the fact of our existence and do the right things which will promote our peaceful coexistence, by worshiping and praying peacefully together as a family to **Ultra ALMIGHTY EXISTENCE** and secure the perfect peace we need to

combine with our space age technological development for the fulfillment of the Paradise already due on Earth.

The United Nations, as the organization mandated to unite humanity and promote our peaceful coexistence, must revoke the freedom of religion, by ensuring that the heliocentric scientific model of astronomy is used to reinterpret existence with the fact of the interconnected unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

The United Nations should use the heliocentric fact of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE** to promote peace, by using the fact that **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planet in Solar systems, Galaxies, Universes and we humans and gods to be in existence and sustained and that to **Ultra ALMIGHTY EXISTENCE** we are to direct our worship and prayers for there to be the perfect peace for Paradise on Earth.

The institution of religion and the “United Nations” know very well that the freedom of religion is very wrong, because we humans are not heterogeneously created differently by different gods. The fact is that all the wonderful cosmic creations and we humans and gods are Created to be in existence as parts of a single unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

This is why the religious beliefs in god and our planet Earth caused the religious disagreements that started the destructive religious conflicts, violence and wars on planet Earth. The religious conflicts, violence and wars makes it clear that the enactment and promotion of the freedom to choose and worship different gods as our different creators is very very wrong and must be urgently revoked for there

LECTURE 8

CONCLUSION

When we review what made our ancient ancestors to believe that our planet Earth is the beginning of existence by a god and why they used the word belief to misinterpret the fact of existence and why they disagreed, we find that their religious beliefs in a beginning of existence with our planet Earth by god was due to their geocentric ignorance of astronomy and their ignorance made them to use the word belief to misinterpret the fact of existence and they disagreed because their religious belief in god is not the fact of existence.

The review shows that our ancient ancestors believed that our planet Earth is the only Planet in existence and is the beginning of existence by god or gods, because they did not have telescopes with which to discover the heliocentric model of astronomy and **know Ultra ALMIGHTY EXISTENCE** infinitely Creates the interconnected unitary system of planets and stars in Solar systems, solar systems in Galaxies, galaxies in Universes, universes in the Multiverse, in which the myriads of wonderful creations and we humans and gods are in existence and sustained. They believed in a beginning with our planet Earth by god because they did not know that **Ultra ALMIGHTY EXISTENCE**

infinitely Creates stars and planets in solar systems, galaxies and universes in the Multiverse.

By understanding the meaning of the word belief, we find that our beliefs are assumptions which are due to our ignorance. This is why everyone does not agree with a belief. Our ancient ancestor's religious beliefs that god or gods are our magical creators in a beginning with our planet Earth was their assumption which was due to their ignorance of astronomy and that was why they did not agree with the religious belief in one god and their disagreements began the religious conflicts, violence and wars which continues to ravage humanity of the present heliocentric age of astronomy and space exploration on planet Earth.

Our ancient ancestors did not agree with the religious belief in one god, because their religious beliefs in god and our planet Earth is not the fact of existence in **Ultra ALMIGHTY EXISTENCE**, Creator of stars and planets in Solar systems in galaxies and galaxies in universes in the Multiverse. It was our ancient ancestor's geocentric ignorance of astronomy and their general beliefs in gods and magic that made them to believe that our planet Earth is the only Planet and the instant magical beginning of existence by god or gods.

Unfortunately, we of the present heliocentric age of astronomy and space exploration continue to use the religious beliefs in god and our planet Earth to misinterpret the fact of the Multiversal system of existence in **Ultra ALMIGHTY EXISTENCE**, Creator

of stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes in the Multiverse, even after religion accepted that their geocentric model of astronomy is wrong and which means that their religious belief in god is also wrong.

The heliocentric scientific fact of astronomy shows clearly that existence is an interconnected unitary system in which our planet Earth is part of our Solar system, our Solar system is part of our Milky way galaxy, our Milky way galaxy is part of our Universe, which is part of the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**. This means that there was never a time when our planet Earth was the only Planet in existence and which also means that there was never a time when our planet Earth was the beginning of existence or by god. This further means that god is not our true Creator.

The fact for peace on Earth is that **Ultra ALMIGHTY EXISTENCE** infinitely Creates all cosmic creations and humans and gods to be **in EXISTENCE** and sustained. This means that to be in existence is to be Created to exist by **Ultra ALMIGHTY EXISTENCE**. Since all creations and we humans and gods are in existence, this directly means that **Ultra ALMIGHTY EXISTENCE** Creates all creations and we humans and gods to be in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we are to direct our worship and prayers for there to be perfect peace for Paradise on Earth.

The truth is that god is not our true Creator. The fact of existence is that **Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence. **Ultra ALMIGHTY EXISTENCE** is not a belief or a god. **Ultra ALMIGHTY EXISTENCE** is **Ultra ALMIGHTY EXISTENCE**, infinite Creator of all creations and humans and gods to be in existence and sustained. This is why we can not say that we believe we are in existence. We normally say we know that we are **in EXISTENCE** because we know the fact that to be existence is to be Created to be in existence by **Ultra ALMIGHTY EXISTENCE**.

This fact of existence is meant to unite the human family on Earth to live in perfect peace. Unfortunately, we of the present heliocentric scientific age of astronomy and space exploration have continued to use our ancient ancestor's geocentric model and ignorance of astronomy to religiously believe in a magical beginning of existence with our planet Earth by god or gods and continue to disagree and suffer from their destructive religious conflicts, violence and wars.

We know that a belief is not a fact. This knowledge makes us to know that our ancient ancestor's religious beliefs that a god is our creator is not the fact of our existence. Since a belief is not a fact and since everyone does not agree with a belief, this also makes us to know why the religious beliefs in god caused the religious conflicts, violence and wars and the chaos on planet Earth.

This shows that we are suffering from the religious conflicts, violence and wars, because we are using belief and the many conflicting religious beliefs in god to misinterpret the single fact of existence in **Ultra ALMIGHTY EXISTENCE**, which is like placing a square peg in a circular hole.

Since ignorance makes us to believe, our ancient ancestor's use of the word belief to misinterpret the fact of existence brings us to the question; why are we using our heliocentric scientific fact and knowledge of astronomy to believe that our planet Earth is the only Planet in existence and is the beginning of existence by god, instead of using the heliocentric scientific fact of astronomy to know that our planet Earth have always been part of a Solar system, which is part of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE**.

Another question is, if we are created by a god, why does god or gods allow us to disagree and violently conflict with one another and suffer from the destructive religious conflicts, violence and wars for worshiping and praying to god or gods. The point is that if we are created by god or gods, we should not be suffering from the religious conflicts, violence and wars, in worshiping and praying to god.

The religious beliefs in god and the religious conflicts, violence and wars shows that we humans on planet Earth are being misled by religion, which is using the conflicting religious beliefs in god to mislead and

confuse us from knowing **Ultra ALMIGHTY EXISTENCE** our Creator for Perfect Peace.

If we truly know **Ultra ALMIGHTY EXISTENCE**, infinite Creator of stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes in which all the wonderful creations and we humans and gods are in existence and sustained, we will not disagree, because the fact of existence in **Ultra ALMIGHTY EXISTENCE** will unite humans on Earth to combine perfect peace with our intellect, scientific knowledge and space age technologies to fulfill Paradise on Earth.

The religious beliefs in god was an assumption and not a fact. That was why the religious beliefs in god caused the religious conflicts, violence, wars and the disunity and chaos, which the institution of religion is exploiting and using to confuse, disunite and mislead us from knowing the truth even after their geocentric model of astronomy and their religious belief in god have been proved wrong by Galileo.

Our ancient ancestor's religious beliefs in god have established the prevailing culture of belief, in which the confusing, conflicting, corrupting and misleading nature of belief is misguiding humans on Earth from knowing the fact that **Ultra ALMIGHTY EXISTENCE** homogeneously Create humans to coexist in perfect peace.

Due to the prevailing culture of belief, humans on Earth are now suffering from the psychological

syndrome of belief, by no longer able to tell the difference between belief and fact, right and wrong, reality and illusion, male and female, the difference between religious deceit and honesty, and the difference between peace and conflict and the difference between the religious beliefs in god and the fact of existence in **Ultra ALMIGHTY EXISTENCE**.

The religious beliefs in gods is the reason why religious believers believe that humans on Earth are a plurality in different gods and that committing religious hatred, violence and atrocities against a fellow human is right and justified, when we naturally know that it is very wrong to do so, considering the fact that we humans are a homogeneous family in the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

We on planet Earth continue to suffer, because we have refused to use our heliocentric scientific knowledge of astronomy to know the fact of our existence in **Ultra ALMIGHTY EXISTENCE**. Instead we are using our heliocentric scientific knowledge of astronomy to believe that our planet Earth is the only Planet in existence (with life) and is the beginning of existence by gods and continue to use god to misrepresent **Ultra ALMIGHTY EXISTENCE**, Creator of stars and planets in Solar systems and humans and gods.

We should be using the heliocentric scientific fact of astronomy to know that there was never a time when our

planet Earth was the only Planet in existence or was the magical beginning of existence or by god. This is because we already know that our planet Earth is part of a Solar system which is part of the interconnected Multiversal unitary system of existence in **Ultra ALMIGHTY EXISTENCE**.

We should be using the heliocentric scientific fact of the unitary system of existence in **Ultra ALMIGHTY EXISTENCE** to interpret existence with fact and live in a culture of fact, in which the fact of existence will guide us to do the right things and live together and pray together to **Ultra ALMIGHTY EXISTENCE** as a human family in perfect peace and fulfill Paradise on Earth. This is because everyone agrees with the fact that our planet Earth is part of a Solar system which is part of the interconnected unitary system of existence in **Ultra ALMIGHTY EXISTENCE**.

It is unfortunate that we of the present age of space exploration, which should be using the heliocentric scientific fact of astronomy to interpret existence with fact and a single interpretation, have instead continued to use our ancient ancestor's geocentric ignorance of astronomy and their religious beliefs in god to misinterpret existence with many conflicting religious, “scientific” and atheist beliefs in god and nothing.

This is why we humans on Earth are confused and now misinterpret existence in different ways with many conflicting religious, “scientific” and atheist beliefs and live in conflicts, discord and in chaos, instead of using

our heliocentric scientific fact and knowledge of astronomy to reinterpret existence with the single unifying fact of existence in **Ultra ALMIGHTY EXISTENCE** and live in perfect peace.

We should be living in perfect peace because everyone agrees with the fact that our planet Earth is part of a Solar system, our Solar system is part of our Milky way galaxy, our Milky way galaxy is part of our Universe and our Universe is part of the Multiverse in the infinity of existence in **Ultra ALMIGHTY EXISTENCE**.

The scientific fact of astronomy is the only means of understanding and interpreting existence properly with fact. This is why the heliocentric scientific fact of astronomy is the only means of interpreting existence with fact and a single interpretation, in order to restore the perfect peace for Paradise on Earth. This is because the heliocentric fact of astronomy shows clearly the interconnection of stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes in the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**.

This fact of existence guides us to know that to be in existence is to be Created to be in existence by **Ultra ALMIGHTY EXISTENCE** and since humans and gods are in existence, this fact makes us to **know Ultra ALMIGHTY EXISTENCE** Creates of all cosmic creations and humans and gods to be in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we

humans and gods are to direct our worship and prayers.

“Scientific” and atheist beliefs; Our ancient ancestor's religious beliefs in a beginning with our planet Earth by god and their culture of belief, was what influenced a scientist/priest to come up with the “scientific” belief that existence began with a tiny speck that magically exploded with a big bang in a non-existing space and time.

The big bang theory is a “scientific” belief because the scientist could not provide a scientific explanation of the constitution of the speck, which he believed exploded magically with a big bang in a non-existing space and time to begin existence, or how after exploding and shattering, the speck still magically retained its original form to start expanding into non-existing space, to magically create stars, planets, solar systems, galaxies, universes and the infinite numbers of wonderful ultra scientific creations in existence. No wonder some scientists are now arguing that the speck did not explode, but that it just expanded. The disagreement shows that the big bang theory is a “scientific” belief and is not the fact of existence.

The “scientific” belief in a beginning of existence by a tiny magical speck from nothing and nowhere is not surprising, because it was a product of our ancient ancestor's culture of belief, in which the fact of existence is being misinterpreted with conflicting religious and “scientific” beliefs and with the atheist belief that since there is no god there is no Creator, as if god is **Ultra ALMIGHTY EXISTENCE**, the Creator of the

Multiverse, humans and gods.

The culture of belief is the reason why we continue to use our heliocentric knowledge of astronomy to misinterpret existence with conflicting religious, “scientific” and atheist beliefs and now live with a confused sense of the singularity of existence in **Ultra ALMIGHTY EXISTENCE** and continue to suffer from the religious conflicts, violence and wars and the discord and chaos on planet Earth.

It is usually said that we suffer due to lack of knowledge. The pathetic situation on planet Earth is that we are suffering not for lack of knowledge, but because we are not applying good judgment to appropriately use our heliocentric scientific knowledge of astronomy to reinterpret existence with the fact of the interconnected unitary system of existence and **know Ultra ALMIGHTY EXISTENCE**, infinitely Creates all cosmic creations and humans and gods to be in existence.

Instead of the present age of space exploration to apply good judgment and use the heliocentric scientific fact of astronomy to reinterpret existence with fact and be guided to know and keep in mind that our planet Earth is part of a Solar system, which is part of the interconnected unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**, we have instead continued to allow ourselves to be misled by religion to continue to use our ancient ancestor's geocentric ignorance of astronomy to misinterpret the single fact of existence with many conflicting religious,

“scientific” and atheist beliefs in many gods and nothing.

Under the influence of religion, we have replaced the single fact of the unitary system and singularity of existence in ultra scientific **Ultra ALMIGHTY EXISTENCE** with the many conflicting religious beliefs and human plurality in many magical gods, thereby replacing our peaceful homogeneity and singularity in **Ultra ALMIGHTY EXISTENCE** with the human conflicting religious plurality in many gods and continue to disagree and suffer from the destructive religious conflicts, violence and wars.

Instead of applying good judgment and use the heliocentric scientific fact of astronomy to reinterpret existence with fact and experience the peaceful wonderful reality of existence in **Ultra ALMIGHTY EXISTENCE**, we have continued to sheepishly follow our ancient ancestor's misleading religious beliefs in gods and continue to suffer from the destructive religious conflicts, hatred, violence and wars.

Instead of applying good judgment and use the heliocentric scientific fact of astronomy to reinterpret existence with the fact that our planet Earth and our Solar system are part of an interconnected single unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**, we have continued to use our ancient ancestor's geocentric ignorance of astronomy to believe in a beginning of existence with our planet Earth by gods and continue to live in our

ancient ancestor's culture of belief in which we are using our heliocentric scientific knowledge of astronomy to believe and say that the Sun is “rising” and “setting”, as if the Sun is actually moving round our planet Earth and continue to believe in the instant magical beginning of existence with our planet Earth by god or gods and continue to disagree and suffer from the destructive consequences, just like our ignorant ancient ancestors.

We of the present age of space exploration are now using our heliocentric scientific knowledge of astronomy to believe that our planet Earth is orbited by the “rising” and “setting” Sun, is the only planet in existence (with life) and is the magical beginning of existence by magical gods, instead of using the heliocentric scientific fact of astronomy to know and keep in mind that **Ultra ALMIGHTY EXISTENCE** infinitely Creates the interconnected unitary system, in which our planet Earth is one of the planets in our Solar system, our Solar system is one of the myriads of solar systems in our Milky way galaxy, which is one of the billions of galaxies in our Universe in the interconnected Multiversal unitary system and singularity of existence in ultra-scientific **Ultra ALMIGHTY EXISTENCE**.

The scientific configuration of stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes, universes in the Multiverse, shows clearly that existence is an interconnected system in which

planets are never alone or stationary and are never orbited by a Star or Sun. This simply means that there was never a time when our planet Earth was stationary or was orbited by a Star or Sun or was the only Planet in existence or was the beginning of existence by a magical god or gods.

The fact of existence is that planets are in motion and orbit a star or sun to form a Solar system, solar systems form Galaxies, galaxies form Universes and universes form the Multiverse and they are all ultra scientifically constituted, connected, configured and organized as parts of the unitary system and singularity of existence in ultra scientific **Ultra ALMIGHTY EXISTENCE**.

This simply means that to be in existence is to be Created to be in existence by ultra scientific **Ultra ALMIGHTY EXISTENCE** and since all cosmic creations and we humans and gods are in existence, this ultimately means that **Ultra ALMIGHTY EXISTENCE** infinitely Creates all cosmic creations and we humans and gods to be in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we humans (and gods) are to direct our worship and prayers for there to be the perfect peace for Paradise, which unfortunately, the freedom to choose and worship different gods as our different creators and the religious conflicts, violence and wars are preventing on planet Earth.

The truth is that there was never a time when our

planet Earth was the only Planet in existence or was the beginning or an implied ending of existence by god or gods. The fact of existence is that there was never a beginning or an implied ending of existence. This is because **Ultra ALMIGHTY EXISTENCE** infinitely Creates all cosmic creations and we humans and gods to be in existence and sustained.

The truth is that there was never a beginning of existence, because there was never a time when our planet Earth was the only Planet in existence or was orbited by the Sun as the stationary geocentric centre of the “universe” or was the beginning of existence by god or gods. It was our ancient ancestor's geocentric ignorance of astronomy and their general beliefs in gods and magic that misled them to believe that there was a beginning with our planet Earth by a god.

The fact is that our planet Earth have never been alone or is stationary or is orbited by a Star or Sun, but with other planets, have always been scientifically in motion round our Star or Sun at the incredible speed of 108,000km/hr. Our ancient ancestors did not know that our Sun is a Star and that planets move round a Star to form a Solar system. That was why they did not know that the myriads of stars they were seeing in the night sky have planets moving round them as solar systems.

This shows that their religious belief that our planet Earth is the only Planet in existence and is the magical

beginning of existence by a god was very very wrong, because god is not **Ultra ALMIGHTY EXISTENCE**, infinite Creator of Solar systems, Galaxies, Universes and all the creations and humans and gods to be in existence and sustained.

The truth is that a god is not our true Creator. The fact of existence is that gods are in existence just as we humans are in existence. This simply means that **Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence and to **Ultra ALMIGHTY EXISTENCE** we humans and gods are to direct our worship and prayers. This is why it is very wrong to worship and pray to god or gods as our creators or to use god to misrepresent **Ultra ALMIGHTY EXISTENCE**, Creator of humans and god and gods.

The prevailing religious beliefs that god or gods are our creators, was an assumption which was due to our ancient ancestor's geocentric ignorance of astronomy and their general beliefs in gods and magic.. This is why everyone does not agree with the religious belief in god and that was why the religious beliefs in god began the destructive religious conflicts, violence and wars and the chaos on planet Earth.

We can not blame our ignorant ancient ancestors for their religious beliefs in god and their culture of belief, in which we continue to misinterpret the scientific fact of existence in **Ultra ALMIGHTY EXISTENCE** with the

magical religious beliefs in god and continue to live with a confused sense of the fact and reality of (our) scientific existence in ultra scientific **Ultra ALMIGHTY EXISTENCE**, by religiously believing that the magical wand of god or gods made we humans and the other creatures, plants and (Sun) light to magically appear instantly on a stationary, unconnected, unscientific planet Earth, which is more of a fairytale than the scientific reality of existence.

We can not blame our ancient ancestors because it was their ignorance of astronomy, through their bare eyes, that made them to believe that our planet Earth is the only Planet in existence and is the magical beginning of existence by god or gods. Their geocentric ignorance of astronomy misled them to misinterpret existence in different ways and in different gods and because their religious beliefs in god is not the fact of existence, that was why they disagreed and began the religious conflicts, violence and wars which we of the present heliocentric age of space exploration continue to suffer from, because we have refused to apply good judgment and use our heliocentric scientific fact and knowledge of astronomy to reinterpret existence with the fact for peace.

Instead we of the present heliocentric age of astronomy and space exploration continue to allow ourselves to be misled by religion to sheepishly follow

our ancient ancestor's religious beliefs in a magical beginning of existence with our planet Earth by gods and continue to disagree and suffer from their destructive religious conflicts, violence and wars.

The point is that we are no longer in our ancient ancestor's era of the geocentric model and ignorance of astronomy. We are now in the era of the heliocentric model and scientific fact of astronomy and should be using the heliocentric scientific fact of astronomy to interpret existence with fact and **know Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse, in which all creations and we humans and gods are in existence.

This fact of existence unites humanity on Earth to worship and pray peacefully as a family direct to **Ultra ALMIGHTY EXISTENCE** and have the perfect peace we need to combine with our technological development to fulfill the Paradise, which unfortunately the freedom of the religious beliefs in god and the religious hatred, violence and wars are preventing on planet Earth.

LECTURE 9

TIME FOR CHANGE

The big question is, is it proper for we of the present age of space exploration to continue to use our ancient ancestor's geocentric model and ignorance of astronomy to believe that our planet Earth is the only Planet in existence and is the beginning of existence by god and suffer the consequences, when we now know that our planet Earth is one of the nine planets in our Solar system, which is part of the interconnected Multiversal unitary system of existence in **Ultra ALMIGHTY EXISTENCE**.

The answer is that we can not continue to use the wrong geocentric model of astronomy to misinterpret existence with the conflicting religious beliefs in god and disagree. This is because we now have the heliocentric model of astronomy to guide us to change from our conflicting religious beliefs in god and the religious conflicts, violence and wars to the fact of our peaceful existence as a homogeneous biological family in **Ultra ALMIGHTY EXISTENCE**.

We know that it is very wrong for us to continue to use our ancient ancestor's geocentric model of astronomy to misinterpret existence with the religious belief that our planet Earth is the only Planet in existence and is the beginning of existence by god or gods. This is because the heliocentric scientific fact of astronomy have made us to **know Ultra ALMIGHTY**

EXISTENCE infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse in which myriads of wonderful creations and we humans and gods are in existence and sustained.

This fact of existence makes us to know that it is very wrong to worship and pray to god or gods as our creators, because **Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we humans and gods are to direct our worship and prayers.

This is why we must revoke the freedom of religion and stop following our ancient ancestor's misleading religious beliefs that gods are our different creators and stop living in their culture of belief, in which we are misinterpreting the single fact of existence with many conflicting religious, “scientific” and atheist beliefs and which are making us to disagree and believe that doing the wrong things and committing religious violence and atrocities against fellow humans is right, acceptable and justified, when we naturally **know Ultra ALMIGHTY EXISTENCE** homogeneously Create we humans to interpret existence with fact and live in a culture of fact, in which we do the right things to promote our peaceful coexistence.

This means that religious believers in god must stop committing religious violence and atrocities against fellow humans, because it is very wrong, unacceptable and unjustified. In order to effect the necessary change,

we must start to apply good judgment to reason together and know that religion is misleading and deceiving us by claiming to preach peace, morality and paradise, when religion is also engaging us in the destructive religious hatred, enmity, conflicts, violence and wars which is destroying our peace of mind and moral values and preventing Paradise on Earth.

We must stop following our ancient ancestors to believe in and worship god or gods as our creators, because their religious beliefs in god is the reason why we are suffering from the destructive religious violence and wars. We should apply good judgment to **know Ultra ALMIGHTY EXISTENCE** Create humans and gods to be in existence and that to **Ultra ALMIGHTY EXISTENCE** we are to direct our worship and prayers for us to have the perfect peace for Paradise on planet Earth.

We must stop believing that the freedom to choose and worship different gods as our different creators will stop the religious conflicts, violence and wars or will promote human peaceful coexistence, because we now know that the freedom of religion is what is perpetuating and promoting the religious beliefs in god and is escalating the destructive religious conflicts, violence and wars which is preventing the perfect peace we need to fulfill Paradise already due on planet Earth.

We already have the space age technological development to fulfill Paradise on planet Earth, but the freedom of religion, which is the human right to choose

and worship different gods as our different creators, is perpetuating the conflicting religious beliefs in god and is escalating the religious conflicts, violence and wars and is preventing the perfect peace we need to combine with our technological development to fulfill Paradise on Earth. This is why **the freedom of religion must be revoked** by the “United Nations” if we want a real United Nations and the perfect peace for Paradise on planet Earth.

The truth is that we humans are not created by god or gods. This is why to worship and pray to god or gods as our creators is very wrong and is the reason for the religious conflicts, violence and wars and the chaos on planet Earth. The fact of existence is that **Ultra ALMIGHTY EXISTENCE** infinitely Creates all cosmic creations and we humans and gods to be in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we humans and gods are to direct our worship and prayers.

Our ancient ancestor's religious beliefs that there was a beginning of existence with our planet Earth by god or gods was very wrong, because there was never a time when our planet Earth was the only Planet in existence or was orbited by the Sun as the geocentric centre of the “universe”, or was the beginning of existence or by god. The fact of existence is that there was never a beginning or ending of existence or with our planet Earth or by god or gods. This is because **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in

Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse, in which the myriads of wonderful creations and we humans and gods are in existence and sustained and to **Ultra ALMIGHTY EXISTENCE** we humans and gods are to direct our worship and prayers.

We normally say that we know we are **in EXISTENCE**, because **Ultra ALMIGHTY EXISTENCE** is not a belief or a god. The fact of existence is that **Ultra ALMIGHTY EXISTENCE** infinitely Creates all cosmic creations and we humans and gods to be in existence and sustained. This is why we normally say that all creations and we humans and gods are in existence, because **Ultra ALMIGHTY EXISTENCE** is **Ultra ALMIGHTY EXISTENCE**, our ultra-scientific Creator with no beginning and no end in time space and possibilities.

The pure fact of existence is that to be in existence is to be Created to exist by ultra-scientific **Ultra ALMIGHTY EXISTENCE**. The fact for peace is that we humans are in existence because **Ultra ALMIGHTY EXISTENCE** Create us to be in existence and sustained. To Change to Perfect peace and Paradise on planet Earth, **the freedom of religion must be revoked**. This is because the freedom of religion, which is the right to choose and worship different gods as our different creators, is against the fact of the unitary system and singularity of existence in **Ultra ALMIGHTY EXISTENCE**, is against our freedom of associating and

living freely as a homogeneous human family, is against freedom from religious violence, atrocities and oppression and is totally against our peaceful coexistence.

The truth is that we humans on Earth are not heterogeneously created differently by different gods, because we do not exist differently with or without air, food and water. The fact of existence is that all humans, including religious believers in god and gods, are homogeneously Created by **Ultra ALMIGHTY EXISTENCE** to exist on the same scientific air, food and water.

This fact of human homogeneity is meant for us to coexist peacefully as a family and singularity in **Ultra ALMIGHTY EXISTENCE**. This is why the freedom of religion, which is the right to choose and worship different gods as our different creators must be urgently revoked for there to be the perfect peace for Paradise on planet Earth.

We know that a belief is not a fact and we also know that our existence is pure fact and not a belief. This knowledge makes us to know that our ancient ancestor's religious beliefs that a god is our creator is not the fact of (our) existence. It was our ancient ancestor's geocentric ignorance of astronomy and their general beliefs in gods and magic that misled them to believe that a god is our creator.

This is not true, because god or gods are not our creators. Our ancient ancestors believed in god and our

planet Earth because they did not have telescopes and the heliocentric fact of astronomy which makes us to know the fact that **Ultra ALMIGHTY EXISTENCE** infinitely Creates of all cosmic creations and humans and gods to be in existence and sustained.

It is very unfortunate that we of the present heliocentric scientific age of astronomy and space exploration have continued to use our ancient ancestor's geocentric ignorance of astronomy to religiously believe that our planet Earth is the only Planet in existence (with life) and is the beginning of existence by god and continue to suffer from the destructive religious violence and wars.

The time have come for we humans on planet Earth to change and live in perfect peace and in Paradise, by using the heliocentric scientific fact of astronomy to reinterpret existence with fact and **know Ultra ALMIGHTY EXISTENCE** homogeneously Create us to coexist in perfect peace and live in a culture of fact in which we will be guided to know the difference between belief and fact, the difference between the religious beliefs in god and the fact of existence in **Ultra ALMIGHTY EXISTENCE** and the difference between peace and conflict and to stop the religious beliefs in god and the unnecessary and wasteful religious hatred, conflicts, violence and wars and the discord and chaos on planet Earth.

We know that there is a great difference between belief and fact just as there is a great difference between

believing and knowing.

We know that there is a great difference between the religious beliefs that our planet Earth is the only Planet in existence by god and the fact that **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse.

We know that there is a great difference between praying to god or gods as our creators and praying to **Ultra ALMIGHTY EXISTENCE**, Creator of humans and gods.

This is why we humans on planet Earth must urgently revoke the freedom of religion and stop the religious beliefs in god and the unnecessary and wasteful religious hatred, violence and wars, so that we can have the perfect peace to combine with our space age technological development for the fulfillment of Paradise which is already due on planet Earth.

Existence is pure fact in **Ultra ALMIGHTY EXISTENCE** and is not the religious beliefs in a beginning with our planet Earth by god.

The Fact for Peace is that **Ultra ALMIGHTY EXISTENCE** infinitely Creates stars and planets in Solar systems, solar systems in Galaxies, galaxies in Universes and universes in the Multiverse, in which myriads of wonderful creations and we humans and gods are in existence and sustained.

To **Ultra ALMIGHTY EXISTENCE** we humans are to direct our worship and prayers, for **Ultra ALMIGHTY EXISTENCE** Create us to coexist in perfect peace and

fulfill Paradise on Earth.

Let us use our heliocentric scientific fact and knowledge of astronomy to reinterpret existence with fact and **know Ultra ALMIGHTY EXISTENCE** homogeneously Create we humans to coexist in perfect peace and stop the religious beliefs in god and the destructive religious conflicts, violence and wars which is preventing the perfect peace we need to fulfill Paradise already due on planet Earth.

Let us use our knowledge and freedom with wisdom.
