

THE KNOWERS
Know Ultra ALMIGHTY EXISTENCE
Through space exploration

TIME FOR CHANGE

G. AKWUE

THE KNOWERS PROJECT FOR CHANGE

Like our ancient ancestors, we in the present age of space exploration, in habitable planet Earth, are still believing that our planet Earth is the only Planet in existence and is the magical beginning of existence by a God or gods and because our interpretations of existence are not correct, we have been disagreeing and worshiping and praying under different religions' roofs to different God and gods and suffering from the destructive religious conflicts, hatred, violence and wars and living in chaos.

The KNOWERS project for change, is to reeducate and redirect we in the present age of space exploration, to use our knowledge from space exploration to interpret existence correctly and know, worship and pray peacefully under one roof to Ultra ALMIGHTY EXISTENCE, our true Creator of billions of stars and planets in solar systems, billions of solar systems in galaxies, billions of galaxies in universes and we humans and God and gods to be in existence and fulfill Paradise in our habitable planet Earth.

INTRODUCTION
THE KNOWERS PROJECT
FOR CHANGE

The knowers project is to redirect humanity in the present age of space exploration, to use our knowledge from space exploration to interpret existence correctly and know, worship and pray peacefully under one roof to Ultra ALMIGHTY EXISTENCE, our true Creator of the interconnected cosmic systems and we humans and God and gods to be in existence.

LECTURE 1
HOW CAN WE KNOW OUR TRUE
CREATOR AND LIVE TOGETHER IN
PERFECT PEACE.

The only way we can know our true Creator and live, worship and pray together under one roof in perfect peace, is to use our knowledge from space exploration to interpret existence correctly.

The interpretation of existence by the religious believers in God, is that our planet Earth is the only Planet in existence and is the magical beginning of existence by a God or gods.

It is necessary to understand, that the religious interpretations, that our planet Earth is the only Planet in existence and is the magical instant beginning of existence by a God or gods, came from our ancient ancestors, who used only their eyes to look at the complex Sky.

We are now in the age of space exploration, in which we now use telescopes to view the complex Sky. So let us ask some **4**

relevant questions and get some useful answers and know the truth, because what we want and all we need is the truth.

QUESTIONS:

1. Is it true that our planet Earth is the only Planet in existence?
2. Was there ever a beginning of existence, or with our planet Earth, or by a God or gods?
3. Is a God or gods our true Creator?

When we use our current knowledge from space exploration to answer these questions, the answer to the first question is that, our planet Earth is not the only Planet in existence.

If our planet Earth is not the only Planet in existence, the answer to the second question is that, there was never a beginning of existence, or with our planet Earth, or by a God or gods.

If there was never a beginning of existence, or with our planet Earth, or by a God or gods, the answer to the third question is that, a God or gods are not our true Creator.

A God or gods are not our true Creator, because the religious beliefs that a God or gods are our magical creators, is based on our ancient ancestors' religious beliefs, that our planet Earth is the only Planet in existence.

Our ancient ancestors believed that our planet Earth is the only Planet in existence, because they did not have telescopes to view the complex Sky and they believed that a God or gods are our magical creator or creators, because they generally believed in gods and magic.

We are now in the age of space exploration, in which we use telescopes to view the complex Sky and now know that our planet Earth is one of the nine planets that are moving round the Sun in our Solar system. This fact shows that our ancient ancestors' religious beliefs, that our planet Earth is the only Planet in existence and is the magical beginning of existence by a God or gods, is not correct or true and ultimately, that a God or gods are not our true Creator. ⑥

A God or gods are not our true Creator, because the religious beliefs that our planet Earth is the only Planet in existence and that we humans and other creatures were made to appear instantly in our planet Earth with the magical wand of a God or gods, is not correct or true, because we now know that our planet Earth is one of the nine planets in our Solar system and that we humans are scientifically constituted to develop from the scientific fertilization of the egg in the womb and the fertilized egg scientifically develops into an embryo, which scientifically develops to form the baby.

Our ancient ancestors' religious beliefs, that our planet Earth is the only Planet in existence is not correct or true, that was why our ancient ancestors disagreed without understanding why they disagreed.

Our ancient ancestors naturally disagreed, because they did not know that there are interconnected cosmic systems, in which stars and planets are in solar systems, solar ⑦

systems are in galaxies, galaxies in universes and universes are in the Multiverse and this fact and reality of existence, cannot be neglected in the interpretation of existence.

It was our ancient ancestors' ignorance of the interconnected cosmic systems that made them to disagree, without understanding why they disagreed and their disagreements made them to misinterpret existence with different religious beliefs in different gods and they worshipped and prayed under different religions roofs to different God and gods and which started their religious conflicts, hatred, violence and wars, which unfortunately is continuing in our present age of space exploration.

Our ancient ancestors religious conflicts, hatred, violence and war began, because each religion claimed that their particular god is the true God and wanted the other religious believers in the other God and gods to accept and worship their particular god as the true God and creator. That is why each religion use capital letter “G” to spell and ⑧

differentiate their particular god from the other gods, even though God and gods belong to the same family of gods.

Our ancient ancestors' religious beliefs, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, was proved to be wrong, when Galileo used his telescope to view the complex Sky and discovered the fact and the truth, that our planet Earth is one of the nine planets that are moving round the Sun in our Solar system.

Instead of praising Galileo for discovering the truth, that our planet Earth is one of the nine planets that are moving round the Sun in our Solar system, and to use the fact to reinterpret existence and rewrite and update their scriptures, the religious believers in God and gods, who are claiming to preach the truth, persecuted and punished Galileo for discovering the truth, by forcing him to recant and withdraw his important discovery, banned his books and kept him under house arrest till his death.

The religious believers in God and gods persecuted and punished Galileo for discovering the truth, that our planet Earth is one of the nine planets that are moving round the Sun in our Solar system, because the religious believers in God and gods believe that our planet Earth is the only Planet in existence, that the Sun is moving round our planet Earth, that our planet Earth is the geocentric centre of the “universe” and is the instant magical beginning of existence by a God or gods.

In view of our current knowledge from space exploration, the question is, did the religious believers in God and gods punish Galileo to protect the truth or to suppress the truth, that our planet Earth is one of the nine planets in our Solar system. (Search the internet for the persecution of Galileo).

It became very obvious to the religious believers in God (and gods), that the fact and truth, that our planet Earth is one of the nine planets in our Solar system cannot be suppressed. That was why the religious

believers in God (and gods) eventually agreed, that Galileo was correct, that our planet Earth is one of the nine planets that are moving round the Sun in our Solar system and then apologized, that Galileo was unjustly persecuted and punished for discovering the truth.

It is very unfortunate and disappointing, that the religious believers in God and gods, who have agreed with the truth, that our planet Earth is one of the nine planets in our Solar system, continue to preach the untruth, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods and continue to disagree and engage us in their religious conflicts, hatred, violence and wars, instead of using the fact and the truth, that our planet Earth is one of the nine planets in our Solar system to reinterpret existence correctly and rewrite their scriptures and continue to update their scriptures as more discoveries are made.

The big question is, why do the religious believers in God and gods, who claim to preach the truth, have continued to preach the untruth

that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, after agreeing with the truth, that our planet Earth is one of the nine planets in our Solar system.

Galileo's discovery of our Solar system, made us to know that our Sun is a Star and that planets normally move round a Star or Sun in a Solar system. This fact makes us to know that the billions of stars, which our ancient ancestors also saw at night in our Milky Way galaxy, have habitable and non-habitable planets that are moving round them as solar systems.

This fact of existence was confirmed recently when NASA, which is the United States space exploration agency, announced that our habitable planet Earth is one of the over three hundred million habitable planets that are moving round the stars in our Milky Way galaxy.

When we consider the fact that our Milky Way galaxy is one of the billions of galaxies in our Universe and that our Universe

is one of the universes in the Multiverse, we now know that there are trillions of habitable planets, like our habitable planet Earth, that are in existence and which the religious believers in God and gods are using our one habitable planet Earth to represent.

The anomaly of using one planet Earth to represent trillions of habitable and non-habitable planets, shows that the religious beliefs, that our planet Earth is the only Planet in existence and is the magical beginning of existence by a God or gods, is wrong and misleading and is very very far from the truth and the fact of existence.

Galileo's discovery of our Solar system opened the door to knowing our true Creator, because his (Galileo's) discovery led us to know that there are interconnected cosmic systems, in which our planet Earth is one of the nine planets in our Solar system, our Solar system is one of the billions of solar systems in our Milky Way galaxy, our Milky Way galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse

in the infinity of existence in Ultra ALMIGHTY EXISTENCE.

The fact and reality of the interconnected cosmic systems in Ultra ALMIGHTY EXISTENCE makes us to know, that for anything to be in existence, it must be existing in Ultra ALMIGHTY EXISTENCE and that anything and everything that are existing in Ultra ALMIGHTY EXISTENCE, are creations of Ultra ALMIGHTY EXISTENCE, provider of the ultra scientific conditions and processes that makes the stars, planets, solar systems, galaxies, universes, and we humans and God and gods and everything to be in existence and sustained.

Hurray! Hurray!! Hurray!! We now know Ultra ALMIGHTY EXISTENCE, our true Creator, creates the interconnected cosmic systems of stars and planets in solar systems, solar systems in galaxies, galaxies in universes, universes in the Multiverse and we humans and God and gods and everything to be in existence. 14

OKAY! This is why we normally say stars, planets, solar systems, galaxies, universes, the Multiverse and we humans and God and gods are in existence.

We normally say the stars, planets, solar systems, galaxies, universes, the Multiverse and we humans and God and gods are in existence, because we are all existing in Ultra ALMIGHTY EXISTENCE, as creations of Ultra ALMIGHTY EXISTENCE, provider of the conditions and processes that makes the cosmic systems and we humans and God and gods and everything to be in existence. This reality shows that the stars, planets, solar systems, galaxies, universes, the Multiverse and we humans and God and gods, have one and the same Creator! Since the religious believers in God and gods have agreed with the fact and the truth, that our planet Earth is one of the nine planets in our Solar system and is one of the trillions of habitable and non-habitable planets that are in existence as creations of Ultra

ALMIGHTY EXISTENCE, the fact of existence in Ultra ALMIGHTY EXISTENCE unites everyone, including the religious believers in God and gods, to worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill Paradise in our habitable planet Earth.

Now we know Ultra ALMIGHTY EXISTENCE create we humans and God and gods to be in existence, the United Nations should as a matter of urgency revoke their freedom of religion, which is the right to choose and worship any God or gods as our creator or creators and which is the underlying reason for the religious conflicts, hatred, violence and wars.

The freedom to choose and worship different God or gods as our different creators, should be urgently revoked, because we humans have one Creator and that is why we are coexisting with the same air, food nutrients and water, as a singularity in Ultra ALMIGHTY EXISTENCE and not as a plurality in many different God and gods.

LECTURE 2
WAS THERE A BEGINNING OF
EXISTENCE OR WITH OUR PLANET
EARTH OR BY A GOD OR GODS?

Space exploration has made us to know that our planet Earth is not the only Planet in existence. The fact and truth we now know, is that our planet Earth is one of the nine planets in our Solar system and is one of the hundreds of millions of habitable planets in our Milky Way galaxy and is one of the trillions of habitable and non-habitable planets that are in existence as creations of UltraALMIGHTY EXISTENCE.

The existence of trillions of stars and planets in solar systems in the interconnected cosmic systems in the infinity of existence in Ultra ALMIGHTY EXISTENCE, brings us again to the question, was there a time when our planet Earth was the only Planet in existence, or was there ever a beginning of existence, or with our planet Earth, or by a God or gods?

When we use our current knowledge from space exploration to answer these questions, as I have illustrated, the answer is **17**

capital NO, there was never a time when our planet Earth was the only Planet in existence and therefore there was never a beginning of existence, or with our planet Earth, or by a God or gods.

There was never a beginning of existence, because the religious beliefs, that there was a beginning of existence with our planet Earth by a God or gods, came from our ancient ancestors' religious beliefs, that our planet Earth is the only Planet in existence, that the Sun is moving round our planet Earth and that our planet Earth is the geocentric centre of the “universe”. Our ancient ancestors' “universe” is what we now know as our Milky Way Galaxy, which is one of the billions of galaxies in our real Universe.

Our planet Earth has never been the only Planet in existence, because we now know that planets normally move round a Star or Sun in a Solar system and that our planet Earth is one of the nine planets that have been moving round the Sun or Star in our Solar system and is one of the hundreds of millions of habitable planets 18

that have been moving around the stars our ancient ancestors also saw at night in our Milky Way galaxy and is also one of the trillions of habitable and non-habitable planets that are in existence as creations of Ultra ALMIGHTY EXISTENCE.

The reality of the existence of trillions and trillions of stars and planets in the trillions of solar systems in the interconnected cosmic systems that are existing in the infinity of existence in Ultra ALMIGHTY EXISTENCE, shows that there was never a time when our planet Earth was the only Planet in existence and which simply means that there was never a beginning of existence, or with our planet Earth, or by a God or gods and which ultimately means that a God or gods are not our true Creator.

There was never a beginning of existence, or with our planet Earth, or by a God or gods, because the existence of trillions of stars and planets in solar systems, trillions of solar systems in galaxies, trillions of galaxies in universes and myriads of universes in the Multiverse in the infinity of existence in Ultra 19

ALMIGHTY EXISTENCE, makes us to know that EXISTENCE is EXISTENCE, with no beginning and no end in time, space and possibilities.

Infinity of existence in Ultra ALMIGHTY EXISTENCE, shows that the big bang theory “scientific” belief, that there was a beginning of existence with our Universe by a speck that 'exploded' in a non-existing space and time and started to “expand” in a non-existing space and began existence, is also not correct or true.

The big bang theory was formed from the belief that our Universe is expanding and that if our Universe is expanding, it must have started from a point or a speck that had “exploded” with a big bang and started “expanding” in non-existing space and began existence.

The question is, can anything that has exploded remain intact to expand. and can expansion take place in a non-existing space. If our Universe is expanding, is it not expanding in a surrounding space that contains other universes.

The big bang theory “scientific” belief is not correct or true, that is why there is no scientific explanation of the constitution of the tiny speck, that was believed to have “exploded” with a big bang in a non-existing space and started to "expand" in a non-existing space and began existence, or where it came from. Just like religion, the big bang theory is based on belief and not on scientific fact and proof.

The big bang theory "scientific" belief, that there was a beginning of existence with our Universe by a speck, is not surprising, because the scientist who propounded the big bang theory, was a religious priest who also preached the religious belief, that our planet Earth is the only Planet existence and is the beginning of existence by a God.

The religious beliefs that our planet Earth is the only Planet in existence and the big bang “scientific” belief, that our Universe is the only Universe in existence are not correct, because we now know that our planet Earth is 21

one of the trillions of planets in existence and that our Universe is one of the universes in the Multiverse in the infinity of existence in UltraALMIGHTY EXISTENCE.

Now we know we are not alone, but that trillions of habitable planets are also in existence, the question is, will the inhabitants of the other trillions of habitable planets accept our religious and “scientific” beliefs, that there was a beginning of their existence with our planet Earth by a God or gods, or that there was a beginning of their existence with our Universe by a speck.

We are now in a very interesting time, because we now know that we are not alone in existence. That is why it is very appropriate and proper that the religious beliefs in God and gods and the “scientific” belief in a speck, are based on beliefs and not on the fact of existence in UltraALMIGHTY EXISTENCE.

LECTURE 3
A BELIEF IS NOT A FACT AND TO
BELIEVE IS NOT TO KNOW

It was very appropriate that our ancient ancestors interpreted existence with the words belief and believe. We know that a belief is not a fact and that to believe is not the same as to know.

We normally have a belief or believe what we are told, because we do not know if what we have been told is true or false, or if what we are seeing is real or unreal. This means that we have a belief or believe what we are told, because we are not sure if what we have been told is true or false, or if what we are seeing is real or unreal.

This further means that we have a belief or believe when we are not sure of something. This is the reason why we cannot say we believe we are in existence, even if we believe in the existence of a God. We cannot say we believe we are in existence, because if we say we believe we are in existence, it means that we are not sure we are in existence. This is why we cannot use belief or believe to express the reality of(our) existence.

We can only say we know that we are in existence, because we naturally know that we are existing in Ultra ALMIGHTY EXISTENCE and as the creations of Ultra ALMIGHTY EXISTENCE.

Our ancient ancestors believed that our planet Earth is the only Planet in existence, because they were not sure if what they saw in the Sky was real or unreal and they interpreted existence with belief, because they were not sure if their interpretation of existence was true or false and they believed in God and gods, because they were not sure if a God or gods are our true Creator

If our ancient ancestors had telescopes to view the Sky, as we do, they would have known that our planet Earth is one of the nine planets in our Solar system and interpreted existence with fact, in accordance with the fact of existence in Ultra ALMIGHTY EXISTENCE and agree and worship and pray together under one roof in perfect peace.

Everyone agrees with a fact, but everyone cannot agree with a belief and that is why everyone cannot agree with the religious belief in God. Existence is a pure fact and should be interpreted with fact and not with belief, or with the religious beliefs in God and gods, which is what the religious believers in God and gods are doing and disagreeing.

A belief is not a fact. This is why the use of a belief to interpret a fact must lead to disagreements. The religious believers in God and gods are disagreeing because their religious beliefs in God and gods cannot be used to interpret the fact of existence in Ultra ALMIGHTY EXISTENCE without having disagreements and conflicts.

When we interpret existence with the fact of existence in Ultra ALMIGHTY EXISTENCE, everyone will agree and worship and pray together under one roof in perfect peace. This is because everyone agrees with the fact that our planet Earth is one of the planets moving round the Sun in our Solar system, but **25**

everyone cannot agree with the religious beliefs that our planet Earth is the only Planet in existence and that is why everyone does not agree with the religious belief in God, because the religious belief in God is not the fact of existence in Ultra ALMIGHTY EXISTENCE.

A belief is not a fact, that is why it is wrong to use a belief to interpret a fact, because to do so will definitely lead to disagreements and conflicts, just as the use of the religious beliefs in God and gods to interpret the fact of existence in Ultra ALMIGHTY EXISTENCE, produced the religious disagreements that started the religious conflicts, hatred, violence and wars.

It is very unfortunate, that we in the present age of space exploration, who uses telescopes to view the Sky, but are still religiously believing that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods and continue to disagree and conflict as believers.

We are acting as believers, because the religious beliefs in God and gods have produced the culture of belief, in which belief is now used to represent fact and believe is used to represent knowing and this anomaly is influencing behaviours in our habitable planet Earth, because we are being guided by the attributes of belief, like conflicts, falsehood, deceit, illusion and hypocrisy.

The culture of belief is why we in planet Earth cannot tell the difference between belief and fact, or the differences between peace and conflict, good and bad, right and wrong, reality and illusion, male and female, truth and untruth, sincerity and hypocrisy.

The culture of belief is the reason why the religious believers in God and gods, who claim to preach peace, that we should love our neighbours as ourselves, are also teaching their members to believe that it is right and proper to hate and use violence against another believer, a fellow human being, when they are supposed to know that it is very wrong to do so, considering **27**

the fact that we humans are coexisting with same air, food nutrients and water as a singularity in UltraALMIGHTYEXISTENCE.

The religious beliefs in God and gods brought the anomaly of using belief to represent fact and using believe to represent knowing and which is the reason why it is now accepted as normal to say, “I believe you” to mean that someone is telling us the truth and that seeing is believing, when seeing is supposed to make us to know, unless when we are not sure if what we are seeing is real or unreal.

The prevailing culture of belief is the reason why the religious believers in God and gods believe that they are preaching the truth, when they are supposed to know that they are preaching the untruth and this is why we now believe we are doing the right thing, when we are supposed to know that we are doing the wrong thing.

In the prevailing culture of belief, we now believe that it is easier and more profitable

to do the wrong thing than to do the right thing, because truth is now seen to be bitter, when truth is supposed to be very sweet, unifying and enriching.

The fact is that it is not easier or more profitable to do the wrong thing than to do the right thing. Our sense of value depends on the prevailing culture, which is due to how we interpret existence, with fact or with belief.

When we interpret existence with fact and with the fact of existence in Ultra ALMIGHTY EXISTENCE, we will live in a culture of fact, in which fact will be our guiding principle, that will guide us to know that it is very wrong to hate or use violence against a fellow human being with whom we are coexisting with the same air, food nutrients and water, as a singularity in Ultra ALMIGHTY EXISTENCE.

In the culture of fact, it will be easier, safer and more profitable to do the right thing than to do the wrong thing, because we will be guided by the attributes of fact, like truth, honesty, reality, 29

sincerity and peace. Truth will be seen to be very sweet, unifying and enriching.

A belief is not a fact and which means that a belief cannot be used to interpret a fact. To do so must lead to disagreements and conflicts, just as the use of the religious beliefs in God and gods, to interpret the fact of existence in Ultra ALMIGHTY EXISTENCE, made our ancient ancestors to disagree and which started their religious conflicts, hatred, violence and wars, which unfortunately is continuing in our present age of space exploration, because we are still believing that our planet Earth is the only Planet in existence, when we already know the unifying fact that our planet Earth is one of the nine planets in our Solar system and is one of the hundreds of millions of habitable planets in our Milky Way galaxy, that our Solar system is one of the billions of solar systems in our Galaxy, our Galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse in the infinity of existence in Ultra ALMIGHTY EXISTENCE. 30

The use of belief and believe to represent fact and knowledge and the use of the religious beliefs in God and gods to interpret the fact of existence in Ultra ALMIGHTY EXISTENCE, is the reason why we in habitable planet Earth are disagreeing and suffering from the religious conflicts, hatred, violence and wars, when we already have the knowledge from space exploration that will set us free.

LECTURE 4

SUFFERING WHEN WE HAVE KNOWLEDGE

It is usually said that we suffer due to lack of knowledge. But the unfortunate and pathetic situation in our habitable planet Earth, is that we are suffering from our ancient ancestors' religious conflicts, hatred, violence and wars, not because we lack the knowledge that will set us free, but because we are still religiously believing, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, which the religious believers in God and gods are preaching to prevent us from using our knowledge from space exploration to interpret existence correctly and know, worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace.

The persecution and punishment of Galileo, for discovering the fact and the truth, that our planet Earth is one of the nine planets in our Solar system, was meant to suppress the truth and prevent us from using our knowledge 32

from space exploration to interpret existence correctly and know our true Creator.

After Galileo discovered that our planet Earth is one of the nine planets in our Solar system, NASA, which is the United States space exploration agency, recently announced that our habitable planet Earth is one of the hundreds of millions of habitable planets in our Milky Way galaxy, which is one of the billions of galaxies in our Universe, which is one of the universes in the Multiverse in the infinity of existence in Ultra ALMIGHTY EXISTENCE. We now know that trillions and trillions of habitable and non-habitable planets are in existence as creations of Ultra ALMIGHTY EXISTENCE.

It would have been expected that the religious believers in God and gods, who have agreed that our planet Earth is one of the nine planets in our Solar system, would have started to use the fact of existence in Ultra ALMIGHTY EXISTENCE to reinterpret existence and re-write their scriptures and begin to preach the truth, that our planet Earth is

one of the nine planets in our Solar system and is one of the hundreds of millions of habitable planets in our Milky Way galaxy, that our Solar system is one of the billions of solar systems in our Galaxy, that our Galaxy is one of the billions of galaxies in our Universe and that our Universe is one of the universes in the Multiverse in the infinity of existence in Ultra ALMIGHTY EXISTENCE and use the fact of existence in Ultra ALMIGHTY EXISTENCE to preach, that for anything to be in existence, it must be existing in Ultra ALMIGHTY EXISTENCE and that the stars, planets, solar systems, galaxies, universes and we humans and God and gods that are in existence, are existing in Ultra ALMIGHTY EXISTENCE, as creations of Ultra ALMIGHTY EXISTENCE and use this fact for peace to reunite humanity in habitable planet Earth, to worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and put an end to the religious beliefs in God and gods and the destructive religious conflicts, hatred, violence and wars in our habitable planet Earth.

It is very unfortunate, that instead of using the fact of existence in Ultra ALMIGHTY EXISTENCE to reinterpret existence and rewrite their scriptures and redirect we in habitable planet Earth on the path of truth and peace, the religious believers in God and gods, who have already agreed with the truth that our planet Earth is one of the nine planets in our Solar system, have continued to preach the untruth, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods.

Most unfortunately, we in the present age of space exploration, continue to accept the untrue religious beliefs, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods as the truth and continue to disagree and suffering unnecessarily from the religious conflicts, hatred, violence and wars, when we already know the unifying fact and truth, that our planet Earth is one of the nine planets in our Solar system and is one of the trillions of habitable and non-habitable planets, that are in existence as the creations of Ultra ALMIGHTY EXISTENCE.

Agreed that we want to know and worship and pray to our Creator, but we cannot know our true Creator of trillions of planets, by believing that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, or when we use our one planet Earth to represent the trillions and trillions of planets that are in existence as creations of Ultra ALMIGHTY EXISTENCE.

By believing that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, we are isolating ourselves from the reality, that our planet Earth is one of the trillions of habitable and non-habitable planets in existence and thereby denying ourselves the enriching knowledge that will open the door to the real wonderful life, which we can only experience when we interpret existence correctly and know,, worship and pray together to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill Paradise in our habitable planet Earth.

It is very obvious that we cannot know our true Creator of the trillions and trillions of planets, if we continue to believe that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods.

We can only know our true Creator when we use our knowledge from space exploration to interpret existence correctly with the fact, that our planet Earth is one of the nine planets in our Solar system and is one of the hundreds of millions of habitable planets in our Milky Way galaxy, that our Solar system is one of the billions of solar systems in our Galaxy, that our Galaxy is one of the billions of galaxies in our Universe and that our Universe is one of the universes in the Multiverse in the infinity of existence in UltraALMIGHTY EXISTENCE.

We are now in the age of space exploration, in which we should be using our knowledge from space exploration to interpret existence correctly and know UltraALMIGHTY EXISTENCE, our true Creator, creates trillions and trillions of planets in the **37**

interconnected cosmic systems and we humans and God and gods to be in existence and sustained.

Unlike our ancient ancestors, who used only their bare eyes to look at the complex Sky, we now use powerful telescopes, that are stationed in our planet Earth and those that are placed in deep space, very far away from our planet Earth, which we use to view and study the other planets and their moons in our Solar system and the other solar systems in our Galaxy.

We regularly use spacecrafts to carry astronauts to the space stations that we have constructed outside our planet Earth, from where our planet Earth can be seen floating in space and we have even travelled as far as to the Moon.

We regularly send unmanned robotic space probes to explore and study the other planets and their moons and even the Sun in our Solar system. The space probes take very good revealing pictures of the surfaces of the planets

and their moons and collect other useful information about them, which they send as messages to the control stations here in our planet Earth.

These valuable information and knowledge from space exploration, enable us to know, most importantly, that our planet Earth has never been the only Planet in existence and ultimately, that there was never a beginning of existence or with our planet Earth or by a God or gods.

Everyone, including the religious believers in God and gods, cannot continue to neglect or refuse to use these valuable knowledge from our space exploration activities, which we can use to interpret existence correctly and know Ultra ALMIGHTY EXISTENCE, our true Creator and live and worship and pray under one roof in perfect peace.

By refusing to use our knowledge from space exploration to interpret existence correctly, we are denying ourselves the experience of the real wonderful life of Paradise, which we can only experience when we know, worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace.

As knowers, who already know the fact and the truth, that our planet Earth is one of the nine planets in our Solar system and is one of the hundreds of millions of habitable planets in our Milky Way galaxy and is one of the trillions of habitable and non-habitable planets that are in existence as creations of Ultra ALMIGHTY EXISTENCE, we cannot refuse to use our knowledge, by believing that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods and be disagreeing and suffering, If we in planet Earth continue to religiously believe, that our habitable planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, we will be isolating ourselves from the wonderful fact **40**

and reality, that our habitable planet Earth is one of the trillions of habitable planets that are in existence as creations of Ultra ALMIGHTY EXISTENCE and thereby denying ourselves the experience of the real wonderful life, which we can only experience when we join the inhabitants of the other trillions of habitable planets, to worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill the Paradise which the religious believers in God and gods and their religious conflicts, hatred, violence and wars have been preventing in our habitable planet Earth.

LECTURE 5

TIME FOR CHANGE

The time for change has come for everyone in the present age of space exploration, including the religious believers in God and gods, to join in the process of change, that began when Galileo used his telescope to discover the unifying fact and truth, that our planet Earth is one of the nine planets that are moving round the Sun or Star in our Solar system.

Galileo's discovery of our Solar system, was meant to change and redirect us from the religious beliefs, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, to knowing the fact that Ultra ALMIGHTY EXISTENCE, our true Creator, creates trillions and trillions of stars and planets in solar systems, trillions of solar systems in galaxies, trillions of galaxies in universes, myriads of universes in the Multiverse and we humans and God and gods to be in existence and sustained.

Galileo's discovery of our Solar system, introduced us into the age of space exploration, in which we now use telescopes to view the complex Sky and travel regularly to the space stations outside our planet Earth and even to the Moon and regularly send unmanned robotic space probes to explore and study the other planets and their moons in our Solar system and the space probes take revealing pictures of the surfaces of the planets and their moons, which are sent back to us as messages, that enable us to know, most importantly, that our planet Earth is not the only Planet in existence, that there was never a beginning of existence or with our planet Earth or by a God or gods and ultimately, that a God or gods are not our true Creator.

We are now in the age of space exploration, in which we should be interested and excited to follow the interesting discoveries and developments in space exploration activities, just as everyone, including the religious believers in God and gods, were interested and excited to follow the space exploration program that landed men from our planet Earth on the Moon. **43**

It is very unfortunate, that after everyone, including the religious believers in God and gods, followed the space exploration of the Moon, the religious believers in God and gods, who claim to preach the truth, have continued to suppress the truth and knowledge from our space exploration activities, by continuing to preach the untruth, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, when, as knowers, we already know the fact and the truth, that our habitable planet Earth is one of the nine planets in our Solar system and is one of the hundreds of millions of habitable planets in our Milky Way galaxy, that our Solar system is one of the billions of solar systems in our Galaxy, that our Galaxy is one of the billions of galaxies in our Universe and that our Universe is one of the myriads of universes in the Multiverse in the infinity of existence in Ultra ALMIGHTY EXISTENCE.

The existence of trillions and trillions of planets in the infinity of existence in Ultra ALMIGHTY EXISTENCE, make us to know

EXISTENCE is EXISTENCE with no beginning and no end in time, space and possibilities.

The existence of the stars and planets in solar systems, the solar systems in galaxies, the galaxies in universes and the universes in the Multiverse in the interconnected cosmic systems in Ultra ALMIGHTY EXISTENCE, make us to know, that for anything to be in existence, it must be existing in Ultra ALMIGHTY EXISTENCE and that anything and everything that are existing in Ultra ALMIGHTY EXISTENCE, are all creations of Ultra ALMIGHTY EXISTENCE, provider of the ultra-scientific conditions and processes that makes the stars, planets, solar systems, galaxies, universes and we humans and God and gods and everything to be in existence and sustained.

Stars, planets, solar systems, galaxies, universes, and we humans and God and gods are in existence, because the cosmic systems and we humans and God and are existing in Ultra ALMIGHTY EXISTENCE, as the creations of Ultra ALMIGHTY EXISTENCE. 45

Since everyone agrees with a fact, the obvious fact of existence in Ultra ALMIGHTY EXISTENCE unites everyone, including the religious believers in God and gods, to worship and pray together to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill Paradise in our habitable planet Earth.

We are not meant to disagree or interpret existence with different religious beliefs, or worship and pray under different religions' roofs to different God and gods or engaging in the destructive religious conflicts, hatred, violence and wars, because Ultra ALMIGHTY EXISTENCE create we humans, including the religious believers in God and gods, to peacefully coexist with the same air, food nutrients and water and this fact of our existence is meant to unite everyone, to worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace.

The fact that we humans coexist with the same air, food nutrients and water, should have made our ancient ancestors to discuss

together with this fact in mind, instead of disagreeing and misinterpreting existence with their different religious beliefs and worshipping and praying under different religions' roofs to different God and gods and started their religious conflicts, hatred, violence and wars and which unfortunately is continuing in our present age of space exploration.

We cannot blame our ancient ancestors for their disagreements, because they did not have telescopes with which to view the complex Sky properly and know the unifying truth, that our planet Earth is one of the planets that are moving round the Sun in our Solar system.

If our ancient ancestors had telescopes to view the Sky as we do, they would not have made the mistake of believing that our planet Earth is the only Planet in existence, or that there was a beginning of existence by a God or gods and they would not have disagreed or started their religious conflicts, hatred, violence and wars.

It is most unfortunate that we in the present age of space exploration, who uses telescopes to view the complex Sky, but have continued to follow our ancient ancestors' mistake, by believing that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods and continue to disagree and suffer from the religious conflicts, hatred, violence and wars, instead of using our knowledge from space exploration activities to correct our ancient ancestor's mistake and interpret existence correctly and know and worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill Paradise in our habitable planet Earth.

The time for change has come, because we cannot continue to wallow in our ancient ancestor's ignorance and suffering from their mistake, because we already have the knowledge from space exploration that will set us free.

Let us use our knowledge with wisdom, because it is better to know than to believe. Be a knower and not a believer.

LECTURE 6

DO YOU KNOW?

1. Do you know that there are interconnected cosmic systems, in which our planet Earth is one of the nine planets in our Solar system, our Solar system is one of the billions of solar systems in our Milky Way galaxy, our Milky Way galaxy is one of the billions of galaxies in our Universe and our Universe is one of the universes in the Multiverse in the infinity of existence in Ultra ALMIGHTY EXISTENCE.

2. Do you know that our Sun is a Star and that planets normally move round a Star or Sun in a Solar system and that our habitable planet Earth is one of the nine planets that have been moving round the Sun or Star in our Solar system, at the speed of 30 kilometres per second or 108,000 kilometres per-hour and that our habitable planet Earth is one of the hundreds of millions of habitable planets that are moving round the stars we see at night in our Milky Way galaxy.

3 Do you know that the Sun is not moving or is 'rising' nor 'setting' around our planet Earth, but

that it is the scientific configuration of the rotation and movement of our planet Earth round the Sun, that makes it look as if the Sun is moving round our planet Earth.

4. Do you know that those billions of stars we see at night, have planets that are moving round them as solar systems and that our Solar system, which is over ten billion kilometres wide, is just one of the billions of atom-like solar systems in our Milky Way galaxy and that the nearest Star solar system to our Solar system is about 40 trillion kilometers away and that the billions of stars we see at night are also trillions of kilometres apart. Just try to imagine the size of our Milky Way galaxy if you can.

5. Do you know that our very large Milky Way Galaxy, which contains billions of very wide and very far apart solar systems, is just one of the billions of galaxies in our Universe and that our extremely large Universe is one of the universes in the Multiverse in the infinity of existence in UltraALMIGHTY EXISTENCE. 50

In view of the mind boggling reality of existence in Ultra ALMIGHTY EXISTENCE, the question is, why do the religious believers in God and gods continue to preach, that our planet Earth is the only Planet in existence and is the beginning of existence by a God or gods, when we already know that our planet Earth is one of the trillions of planets in the interconnected cosmic systems in the infinity of existence in UltraALMIGHTY EXISTENCE,

LECTURE 7
WORSHIP AND PRAY TO ULTRA
ALMIGHTY EXISTENCE

We in habitable planet Earth are believing that a God or gods are our magical creators and are worshipping and praying under different religions roofs to different God and gods and are experiencing the religious conflicts, hatred, violence and wars, bad diseases, epidemics, pandemics, disasters and living in chaos with lots of unnecessary problems.

The fact is we are not supposed to be worshipping and praying to God or gods as our creator or creators, because Ultra ALMIGHTY EXISTENCE create humans and God and gods to be in existence.

We are not supposed to be worshipping and praying under different religions roofs to different God and gods and engaging in the religious conflicts, hatred, violence and wars. This is because Ultra ALMIGHTY EXISTENCE create we humans to peacefully 52

co-exist with the same air, food nutrients and water and this fact of our existence is meant to unite everyone, including the religious believers in God and gods, to worship and pray together to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and experience the real wonderful life of peace and Paradise.

Worshipping and praying to Ultra ALMIGHTY EXISTENCE is very simple, but produce very effective and permanent solutions to our personal, communal, professional, business, scientific and health problems, no matter how serious, complex or difficult.

We will be amazed by the wonderful solutions to our problems, as we worship and pray regularly to Ultra ALMIGHTY EXISTENCE. As is usually said, experience is the best teacher, to teach us to see, that by worshipping and praying to God or gods as our creator or creators, we are missing a lot of wonderful experiences, which we can only experience if we worship and pray to Ultra ALMIGHTY EXISTENCE, Creator of we humans and God and gods..

Ultra ALMIGHTY EXISTENCE did not create we humans to suffer, but for we humans to be well cared for and protected. That is why, unlike the other animals, we humans cook our food, live in houses and produce and wear clothes and use phones, cars, planes etc.

As the developer of the knowers project and institution for change, I want to share some of my wonderful experiences, since I asked the relevant questions and got the answers to know and worship and pray regularly to Ultra ALMIGHTY EXISTENCE, our true Creator.

I used to fall critically ill, lying on the bed all day, unable to work for a week or more. All that stopped about ten years ago, when I was critically ill and could not walk properly, because my knees were so painful and weak.

One evening as I lay on the bed, I had a very weird but very brief experience. I thought I was going to die. The weird experience lasted for a minute or two. All of a sudden, it stopped and I jumped out of the bed, and my illness and

the pain in my knees disappeared.

I started to move around and doing things as usual and even forgot I had been ill . After that wonderful experience, about ten years ago, I have not been critically ill and down like that again.

Another wonderful experience I had in 2021, was when on my way back home, I saw a madman, carrying a large filthy bag, standing in front of the gate to the Knowers Resource Center, where I also live. When I saw him from a distance, I said, 'with the grace of Ultra ALMIGHTY EXISTENCE, now you are here, you are going to be healed.'

Though he did not hear what I said, but he formed the habit of coming almost everyday and anytime I walk past him, I usually greet him without getting any response, because he will just be talking to himself. About three to four months after I wished him to be healed with the grace of Ultra ALMIGHTY EXISTENCE, my son who was so excited by what he saw on his way back home, rushed in to me and said, dad 55

the madman who usually stands in front of the gate has been healed!

I was being overwhelmed with joy by the wonderful news, when his mum came in later and confirmed the wonderful experience, that she was there where people, who were so amazed, gathered around him and some of them who live nearby, were giving him clean fresh clothes to wear, after he recovered his senses and started to remove and throwaway his very dirty and filthy clothes, before his relatives who had been informed, came running in and took him home. Since that day of his wonderful recovery, he is no more seen roaming the streets as he had done for many years.

These two wonderful experiences are some of the many experiences I have had since I started to worship and pray regularly to Ultra ALMIGHTY EXISTENCE. A lot of terrible incidents have been averted.

My experiences continue to fill me with limitless joy, that I am worshipping and praying to our true Creator and with the confidence, that with the grace of Ultra ALMIGHTY EXISTENCE, I have nothing to fear or worry about. As is usually said, experience is the best teacher.

When we in habitable planet Earth ask the relevant questions, as I illustrated at the beginning of this handbook, we will get the answers that will make us to know, worship and pray to Ultra ALMIGHTY EXISTENCE under one roof, and experience the real wonderful life of peace and Paradise.

It is very obvious, that when we interpret existence correctly and know, worship and pray together to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace, our life experiences will be very very different from what we are currently experiencing, by worshipping and praying under different religions roofs to different God and gods and suffering from the destructive religious conflicts, hatred, violence and wars and living in chaos.

The question is, if a God is our true Creator, why are we disagreeing and engaging in and suffering from the destructive religious conflicts, hatred, violence and wars.

For us to worship and pray to Ultra ALMIGHTY EXISTENCE and experience the wonderful life, is very simple. As knowers, with our knowledge from space exploration, we do not require priests or a special building, as with religion, where priests of the different religions, preach their fairytale religious beliefs of a magical beginning of existence with our planet Earth by a God or gods.

As knowers, we do not require priests or special buildings, because with our knowledge, our home is our special place for worshipping and praying to Ultra ALMIGHTY EXISTENCE. We can also worship and pray anywhere at anytime.

We do not need priests and their religious fairytales, because with our knowledge from space exploration we know Ultra ALMIGHTY **58**

EXISTENCE creates stars and planets in solar systems, solar systems in galaxies, galaxies in universes, universes in the Multiverse and we humans and God and gods to be in existence and sustained.

As knowers, we do not require priests to pray for us or put us through lengthy stressful religious ceremony rituals. Neither do we require expensive and dangerous religious pilgrimages to offer ritual offerings to different God and gods in different religious sites, because, like we humans, gods have to be fed.

As knowers, we do not offer ritual offerings, because we humans have nothing to offer to Ultra ALMIGHTY EXISTENCE, Creator of we humans and God and gods and everything to be in existence. All that is required is for us to make our regular worship and prayers to Ultra ALMIGHTY EXISTENCE our way of life and doing the right things that will promote peaceful coexistence.

As knowers of Ultra ALMIGHTY EXISTENCE, we do not need priests to pray for us, just as we do not require priests to teach us how to eat or drink water, because our regular worship and prayers to Ultra ALMIGHTY EXISTENCE, is like eating and drinking water to refresh ourselves and for requesting for guidance and solutions to problems that are beyond our understanding.

As knowers, we do not need priests to pray for us, because we know our problems and we can explain them better in our prayers, for us to get the appropriate and proper solutions to our problems. When we are too weak to talk due to ill health, we can pray with our thoughts in our mind. But if someone is incapable of talking or thinking properly, fellow knowers can pray for him or her.

If we have questions to ask, the knowers resource centers will have counselors, who will answer some of our questions and counsel us on how to pray properly in our homes, because our home is our special place for regular worship and prayers. We can worship and pray with relatives, neighbours, friends and co-workers. 60

Our regular worship and prayers to Ultra ALMIGHTY EXISTENCE, will enable us to live and experience the real wonderful life. What is most important is for us to worship and pray direct to Ultra ALMIGHTY EXISTENCE and we will begin to experience the real wonderful life.

As knowers, we should worship and pray three or more times every day. It is necessary for us to be as clean and neat as possible, by taking our bath or wash our head and face, our arms and hands, our legs down to the soles of our feet and wash our mouth with water before prayers.

We should sweep or clean the floor or a part of the floor where we are to pray. Better still, we can buy a prayer mat or a new foot-mat as prayer mat, that we can use for regular worship and prayers indoors and outdoors and wash the prayer mat from time to time. To worship and pray, we should kneel down and place our forehead on the clean floor or prayer mat and pray. At night we should bathe, wear clean

clothes and wash our mouth with water before prayers. When we wake up in the morning, before greeting anyone, we should wash our face and mouth with water and greet and worship and pray briefly with thanks to Ultra ALMIGHTY EXISTENCE, for protecting us through the night and enabling us to have a refreshing sleep.

After taking our bathe in the morning, we should wear clean clothes and wash or rinse our mouth with water and worship and pray before leaving home for school, work or business. During the day, at work or in our places of business or wherever we are, we should clean up and worship and pray. If it is not possible, we should worship and pray immediately we return home. We should always give thanks before and after eating.

In our prayers, we should not pray with bad thoughts or hatred against anyone, even if we have been offended or threatened, because our thoughts are part of our worship and prayers. To stop or remove bad thoughts, we can hold our breathe briefly and exhale. ⑥

Instead of praying with hatred against anyone, pray to Ultra ALMIGHTY EXISTENCE for protection and guidance and pray that those who offend or threaten us will become reasonable and understanding. This will help us and everyone to develop a proper frame of mind for peaceful coexistence.

We should not make anyone our enemy or hate or use violence against a fellow human being, because as knowers, we know that it is very wrong to do so, even if they have threatened or offended us. As knowers, we have nothing to fear or worry about, because with the grace of Ultra ALMIGHTY EXISTENCE, we are well protected, as long as we are doing the right thing.

In our worship and prayers, we should not use words such as “him” and “his” to refer to Ultra ALMIGHTY EXISTENCE, because Ultra ALMIGHTY EXISTENCE, our true Creator, is not a human being or a God or gods. Instead of saying “him” or “his”, we should say Ultra ALMIGHTY EXISTENCE, our Multiversal 63

Creator and conclude our prayers with “to Ultra ALMIGHTY EXISTENCE, I or we wholeheartedly pray”.

As everyone learn to pray without enmity, hatred or violence in mind against anyone, the knowers culture of fact will continue to develop and engage everyone to live in accordance with the peaceful reality of existence as creations of Ultra ALMIGHTY EXISTENCE and since everyone peacefully coexist with the same air, food nutrients and water, perfect peace and Paradise will be fulfilled and established in our habitable planet Earth.

Our ancient ancestors' religious disagreements, introduced the conflicts, hatred, enmity, violence and wars into our habitable planet Earth, because they refused to discuss, even though they coexisted with the same air, food nutrients and water.

If our our ancient ancestors had discussed and reasoned together, with the fact of our coexistence in mind, they would have been able to avoid their unnecessary religious disagreements, conflicts, hatred, enmity, (64)

violence and wars, even if they did not have telescopes to view the Sky and know the unifying fact, that our planet Earth is one of the nine planets moving round the Sun in our Solar system.

We are now in the age of space exploration, in which we should be using our knowledge from space exploration to interpret existence correctly and agree, know, worship and pray to Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill Paradise in our habitable planet Earth.

Let us use our knowledge with wisdom, because it is better to know than to believe. Be a knower and not a believer

WORSHIP RHYMES

1. I worship and pray to Ultra
ALMIGHTY EXISTENCE, because
Ultra ALMIGHTY EXISTENCE create
me to exist and sustained.

2. I am a knower because I know,
I am a knower yes I know;
I am a knower because I know,
I am a knower yes I know
I know Ultra ALMIGHTY EXISTENCE
creates everything and we humans and
gods to be in existence,
I know Ultra ALMIGHTY EXISTENCE
creates everything and we humans and
gods to be in existence.

THE KNOWERS GUIDE

The knowers know Ultra ALMIGHTY EXISTENCE create the stars and planets in solar systems, the solar systems in galaxies, galaxies in universes, universes in the Multiverse and we humans and God and gods to be in existence and sustained.

We know that a belief is not a fact and that to believe is not the same as to know. Everyone can agree with a fact, but everyone cannot agree with a belief. This is the reason why everyone can agree with the fact of existence in Ultra ALMIGHTY EXISTENCE, but everyone cannot agree with the religious beliefs in God and gods and which is the reason for the religious disagreements, conflicts, hatred, violence and wars.

We know that existence is a pure fact and should be interpreted with the unifying fact of existence in Ultra ALMIGHTY EXISTENCE for us to have the agreement that will unite everyone, including the religious believers in God and gods, to worship and pray together to **67**

Ultra ALMIGHTY EXISTENCE under one roof in perfect peace and fulfill Paradise in our habitable planet Earth.

We know that a belief is not a fact and that a belief cannot be used to interpret a fact, just as the religious beliefs in God and gods cannot be used to interpret the fact of existence in Ultra ALMIGHTY EXISTENCE. Doing so was what made our ancient ancestors to disagree and started their religious conflicts, hatred, violence and wars, which unfortunately, is still continuing in our present age of space exploration.

The knowers do not resort to anger, hatred, enmity, violence or wars against fellow human beings, because we know that we humans are peacefully coexisting with the same air, food nutrients, and water, as creations of Ultra ALMIGHTY EXISTENCE and to have solutions to problems and disagreements through discussions, The knowers do not resort to anger, hatred, enmity, violence or wars against fellow human beings, because we know that we 68

humans are peacefully coexisting with the same air, food nutrients, and water, as creations of Ultra ALMIGHTY EXISTENCE and to have solutions to problems and disagreements through discussions, and treat what is true as true and what is false as false just as we should treat what is right as right and what is wrong as wrong. We should not do anything that is known to be bad.

The knowers do not argue, but should engage in discussions in order to have an agreeable solution to disagreements, because it is better to discuss than to argue.

We know that proper discussions, that are guided by fact and truth, will definitely produce the relevant points and answers that will produce the solutions to settle differences and thereby avoid conflicts, hatred, enmity, confrontations, violence and wars.

When anyone wants to argue with us, we should let them understand that we will prefer to **69**

discuss and by discussing positively and properly with them, they will calm down and be cooperative.

When discussing, we should have self control and think positively, so that we can provide positive and agreeable points, suggestions, answers and advice that will lead to a peaceful conclusion and agreement without conflicts.

The knowers know that it is better, safer and more profitable to do the right thing than to do the wrong thing. We know that when we do the right thing and discuss positively, we will get the right answers and results that will promote peaceful coexistence.
